USING THIS MANUAL

Congratulations on your success in obtaining a Parks and Recreation Trust Fund (PARTF) grant! It would be great if that was all there was to it. Receiving a grant, however, comes with many program components that require documentation and / or follow up:

- the financial administration of your project,
- the documentation of your expenditures to obtain reimbursement of your grant award, and
- your responsibilities for maintaining and operating the public recreation site for a minimum of 25 years.

These responsibilities come from state law, the PARTF program administrative rules, and the policies and procedures of the N.C. Department of Environment and Natural Resources (DENR).

Participation in the PARTF program constitutes a public trust and this responsibility cannot be delegated or transferred. It is the responsibility of local government sponsors to:

- comply with this manual and all terms and conditions of the grant agreement,
- manage funds efficiently and effectively in accordance with the approved budget,
- promptly complete the grant assisted activities in a diligent and professional manner, and
- monitor and report performance.

The purpose of this manual is to provide you with the information you need to:

- successfully complete your project,
- prepare your reimbursement documentation and obtain your grant payment, and
- operate and maintain your project site in compliance with PARTF requirements for public recreation use.

Read **CAREFULLY** all the information contained in this manual. Even though all material is intended to be self-explanatory, contact your Recreation Resources Service (RRS) regional consultant if you have any questions or anticipate problems. You will be submitting your reimbursement claim and documentation to your RRS regional consultant. Our goal is to fairly and legally administer the PARTF program funds, to help you avoid problems before they occur, and to expedite the processing of your reimbursement claim and payment.

DEFINITIONS

Administrative Rules – the adopted rules governing the PARTF requirements and regulations for local governments to comply with as published in the N.C. Administrative Code.

Department (DENR) – the North Carolina Department of Environment and Natural Resources serves as the grantor of the PARTF grant to the local sponsor and oversees grant administration for the State of North Carolina.

Grant Amount – the amount of PARTF matching assistance available to the sponsor to complete their project agreement.

Grant Payments – payments made to a sponsor upon request for reimbursement of eligible costs incurred for work in accomplishing project elements.

PARTF – the North Carolina Parks and Recreation Trust Fund which provides matching grants to local governments to acquire land and/or develop park and recreation areas and facilities that serve the general public.

Project Agreement – the contractual agreement between DENR and the Sponsor that sets forth the obligations assumed by the Sponsor through its acceptance of PARTF assistance, including rules and regulations applicable to the conduct of the project and any special terms and conditions applicable to the project as established by DENR.

Project Costs – all necessary and eligible expenditures by the sponsor in accomplishing the objectives of the project scope during the project period.

Project Elements – the items listed in the project scope, such as the land to be acquired, recreational facilities, and planning. Project elements are to be financially assisted by the grant and completed in accordance with the terms and conditions of the project agreement.

Project Period – the specified period of time defined in the project agreement during which all work must be completed. PARTF allows a three year project period.

Project Scope – a list of all the specific project elements in the project agreement to be accomplished by the sponsor.

Regional Consultant – the park and recreation consultant from the Recreation Resources Service assigned to the sponsor's region of the state serves as the single point of contact in grant administration for the sponsor.

Sponsor – the incorporated municipality, county, or public authority which is the PARTF grant recipient (i.e. grantee) and party to the project agreement and to which funds are to be transferred pursuant to the project agreement.

PROGRAM ADMINISTRATION

The North Carolina Parks and Recreation Authority, a 9-member appointed board, oversees PARTF and annually allocates funds from PARTF to local government projects. The North Carolina Department of Environment and Natural Resources (DENR) has been designated as the state agency responsible for PARTF program administration and coordination. Within DENR, program responsibilities have been assigned to the Division of Parks and Recreation (DPR). DPR has a contract with the Recreation Resources Service (RRS) at North Carolina State University to provide field administration for local PARTF projects. RRS has four regional consultants responsible for PARTF field administration.

CONTACTS FOR HELP

Your regional RRS consultant serves as your “single point of contact” and is available to:

- answer all of your technical and financial questions about the administration of your project;
- monitor your project’s progress;
- inspect your project during development and upon completion;
- review your reimbursement claims; and
- monitor compliance with the PARTF program requirements in the future.

For updated contact information for RRS regional consultants, visit the PARTF web site at <http://www.ncparks.gov/partf> and click on the link “For Grant Recipients”.

WHEN YOU RECEIVE THE GRANT AWARD

As the sponsor, you are responsible for project administration and program compliance. Although other individuals may be utilized to assist in project administration, DENR can only recognize the sponsor as the legal responsible party. **All project correspondence, documentation, commitments and reimbursement requests must be made and submitted by the sponsor.**

Read the project agreement carefully. It is a legally binding document and contains basic information about your project, the grant award, and your obligations to the grant program. All your application materials will be considered as supplemental documentation to your project agreement.

1. **The Project and Contract Numbers** are unique to your project and must be recorded on the reimbursement claims form and used on all expenditure documentation for project accounting purposes. Also, these two numbers must be used on all correspondence to DENR related to your project. Example: Project number - **PARTF # 2015-745** and Contract number – **DENR #6211**.
2. **The Project Scope** provides a narrative of the acquisition and/or development items that you are obligated to complete. Any changes require **advance** DENR approval and a formal amendment.
3. **The Project Time Period** designates the dates between which project activities can occur. Projects are given a maximum time period of **3 years** to complete. Time extension requests will **not** be considered or approved unless circumstances occur beyond the sponsor's control, such as a natural disaster. **Aside from the following exceptions, development project activities and land acquisitions are ineligible if they occur outside of the project time period:**
 - a. Exceptions for land acquisition projects - surveys, appraisals, title searches and attorney's fees used to determine the legal description and fair market value are eligible if incurred within two years of the PARTF application deadline. To be eligible, these costs must be documented in your application. Purchasing a property prior to the grant award is allowed only if DENR has approved the purchase and granted a waiver. This approval must be obtained prior to the purchase.
 - b. Exceptions for development projects - site plans, project cost development, pre-engineering and project design activities occurring within two years of the application deadline are the only pre-award planning activities eligible for reimbursement. Costs associated with these activities must be specifically identified in your application's project costs and in the project agreement. Invoices for these costs must be submitted with your first reimbursement request.

4. **Grant Program Conditions.** The project agreement contains specific grant program conditions which you agree to when you sign it. They describe your responsibilities in acceptance of the grant, including:
 - a. state bidding and contract requirements,
 - b. land acquisition requirements,
 - c. compliance with the Americans with Disabilities Act for accessibility,
 - d. what happens if you fail to comply with the terms of the agreement, and
 - e. retention/ operation/ maintenance and public use requirements.
5. **Attachment B – Scope of Work.** Attachment B of the project agreement incorporates the information contained in your application, and the project costs and project narrative as part of the project agreement. The project agreement is subject to applicable state and local laws, regulations, and permits, and to PARTF requirements and assurances associated with your project. As part of Attachment B, you must take into consideration all comments made by state agencies in the course of environmental review of your project under the provisions of the State Environmental Policy Act (SEPA).
6. **Reimbursement.** PARTF assistance is provided on a matching basis up to a maximum of fifty (50) percent of the total project's related allowable cost. Payment of PARTF funds is made on a cost-incurred, reimbursement basis. This means you must initially expend local funds, which are then reimbursed, under the terms of the grant. Reimbursement claims may be submitted quarterly after at least \$2,500 of expenditures have been incurred on a project element(s). Not more than 90% of the PARTF grant amount will be reimbursed until the project is completed. To obtain the total grant amount approved for the project, you must complete the project according to the project agreement and provide documentation showing 100% of eligible expenditures for the project.

Sign and Return The Project Agreement. Sign and return the two (2) project agreements within 45 days of receipt to the Division of Purchase/Services' Agent for DENR. As part of DENR's contract process, if your local government hasn't done so already it will be required to register as a "Vendor" in the State's EProcurement System. Instructions for registering in EProcurement will be provided in DENR's cover letter with your project agreement. Upon receipt of your signed contract, DENR's Agent will review and authorize execution of the project agreement.

Don't begin work on the project before your project agreement is fully executed (signed by the local sponsor and DENR) and you receive the executed project agreement for your file. The project agreement should be placed in a safe place and must be part of your PARTF project file.

When Can We Begin the Project? Projects can start only after **all the following actions** take place:

- Approval by the Parks and Recreation Authority for a PARTF grant; and
- Execution of project agreement between DENR and the sponsor.

There are two exceptions. Some planning costs and incidental land acquisition costs are eligible if they are incurred within two years of the application deadline and are included in the project costs. Also, DENR may have approved a waiver allowing an applicant to acquire land prior to executing the project agreement.

DURING THE PROJECT PERIOD

Carry Out the Project According to the Project Agreement. Depending on the type of project and the terms of the project agreement, there may be special conditions on your project agreement that need to be fulfilled during your project. This might include obtaining permits, fulfilling contract and bidding requirements, getting approvals, or recording the deed for a land transaction with the required PARTF restrictive use language inserted. Read the manual sections on Development Projects (page 16) and Acquisition Projects (page 20).

Satisfactory Progress. You are responsible to ensure that your project is implemented with reasonable promptness to a stage of completion acceptable to DENR and in accordance with the project agreement. You have **one year** from the execution of the project agreement to begin substantial work.

Tracking Project Expenditures - Grant Accounting. As the sponsor of a PARTF public recreation grant, you are responsible for maintaining fiscal controls and fund accounting procedures that are based on generally accepted accounting standards and principles. The following minimum requirements must be met:

- Establish a separate account and supporting documents for your grant. Use the grant's project numbers for coding all related expenditures. Example: **PARTF # 2015-745** and contract number – **DENR #6211**
- Itemize all supporting records/documents of project expenditures by “**project element**” as listed in your application's project costs and in the project scope of your project agreement. Records/documents must have sufficient detail to show the exact nature of all expenditures, including matching expenditures for land donations as proof all expenditures are directly related to the project element.

If it is necessary to have a third party who is not an official project sponsor handle the financial administration of your project (e.g. another municipality or other organization), you **must** discuss this with your regional consultant and receive **prior written DENR approval**. It may be permissible as long as you and the third party justify the need and provide documentation substantiating the relationship between the sponsor and the third party. However, as the sponsor you are responsible for completing and submitting project reimbursement requests and the required documentation to your regional consultant. All PARTF reimbursement checks will be issued to the sponsor, not the third party.

Retaining Financial and Administrative Records. Project documentation records, including the project agreement, amendments, application materials, accounting/contract documentation and correspondence must be maintained by the sponsor in a project file.

Important requirement: All financial records related to your grant must be retained for possible audit a minimum of five (5) years following final payment and be made readily available for audit (see the Manual section - When Your Project is Complete - Audit Procedures, page 14).

For acquisition projects, deed(s) or easement(s) with the PARTF restrictive clause, certified appraisals, surveys and project boundary maps, etc. must be maintained in the project file. During the project period, your regional RRS consultant will perform an annual site inspection and may review your financial and administrative records for compliance.

Inspections. During the project period, your regional consultant will make several site visits to make sure that work is progressing in accordance with the project as approved.

1. **Six-Month Report** - After the end of the first six (6) months of your project, your regional consultant will contact you to determine if adequate financial/administrative procedures have been established, if development and/or acquisition has begun on your project, and if the project is on schedule.
2. **Annual Progress Inspections** - Near the end of each year of the project, your regional consultant will perform a site inspection to see if the project is being built according to the approved plans and specifications, that the project is on schedule, that the project's financial/administrative files are in order, and that requests for reimbursement accurately reflect work that has been done. You may or may not be notified in advance of these inspections. Please note that the day to day supervision of the project's implementation is your responsibility.
3. **Final Inspection** - Prior to the release of your final reimbursement payment, your regional consultant will complete a final inspection of your project. The consultant will check to see that all work is completed according to approved plans, specifications and amendments to the project agreement, that all PARTF-assisted wiring is underground, that all PARTF-assisted facilities are accessible to persons with disabilities, and that all accounting documentation is in order. A copy of the inspection report will be sent to you. **Deficiencies noted in the inspection report must be corrected and reported in writing to your regional consultant within 4 weeks of the inspection date. Your final reimbursement payment will be held until inspection deficiencies are corrected and approved by your regional consultant.**

If the location of any PARTF facility has changed from the original site plan submitted with your application and/or your project was amended to add or delete project element(s), you will be required to submit **two (2) updated as-built site plans** as part of the closeout process to DENR. The as-built site plan must be dated, and labeled as "as-built with PARTF number." Please color-code all PARTF facilities on the as-built site

plans in “light green.” See Appendix C on Page 49 for as-built site plan instructions.

4. **Self-Certification Inspections** – A sponsor must operate a PARTF-assisted facility for public use for at least 25 years. At least once every five years during the 25-year period, you will be required to conduct a site inspection on behalf of DENR to ensure your PARTF-assisted facilities are well maintained and being operated for public recreation purposes and that all applicable PARTF regulations are being met. Your assistance with these inspections is in keeping with the PARTF project agreement that you signed with DENR. DENR will send you the inspection report form and a copy of your site plan to assist with your inspection. The inspection report must be completed and returned to DENR within 60 days of its receipt.

Spot Inspections – Regional consultants will perform periodic formal and informal inspections of your project area and facilities to determine compliance with the sponsor’s long-term obligations. You will be notified of any problems identified and will be asked to address them within a reasonable timeframe. **Failure to comply with long-term obligations is a violation of the terms of your project agreement and will require mitigation. In addition, failure to comply with long-term obligations will negatively impact your ability to compete for future recreation grants, including PARTF and the federal Land and Water Conservation Fund.** Any questions regarding long-term obligations should be forwarded to your regional consultant for discussion.

Please Note - It is not uncommon for a park to receive grant assistance under a number of grant programs, including PARTF, LWCF, Clean Water Management Trust Fund, etc. Therefore, the sponsor’s long-term obligations at the park site may be governed by more than one project agreement. A sponsor should make sure they are aware of **all** grant obligations before implementing any changes at the park site.

Income Received From the Project. During development of the project within the project period, income earned by the sponsor from sources other than the intended recreational use of the project are encouraged to be added to funds committed to the project and be used to further eligible PARTF program objectives on the project site. Examples of income include the sale of timber, rental of land during the project period, and the deposition of any structures or improvements included in the project’s acquisition costs associated with the agreement. This income may include materials salvaged from the demolition of a building.

PREPARE AND SUBMIT THE REIMBURSEMENT PAYMENT REQUEST

General Information - Grant payments are made on a cost-incurred, reimbursement basis. DENR does not provide up-front monies for approved projects. This means your local government must have local funds available to cover initial grant expenditures until reimbursement payments are made. You must submit reimbursement requests, accompanied by the required documentation, to receive grant funds. Reimbursement requests may be submitted quarterly according to the billing schedule described under “Schedule for Requesting Payments” on page 11. For acquisition only projects, generally a single reimbursement request is made after the property is acquired.

Assuming all reimbursement documentation is in order, DENR will make every effort to process reimbursements promptly and to return checks within 45 days from the date the request was received in your regional consultant’s office. The one exception occurs during the period of mid June and early July which corresponds with the close out of State government’s fiscal year. Incomplete billing documentation is the most frequent cause for reimbursement delays.

What Costs Does PARTF Cover? PARTF assistance is available to acquire land and/or develop/renovate park and recreation areas that serve the general public. Eligible costs include:

- a. Outdoor and indoor recreation facilities;
- b. Support facilities, such as roads, parking areas, accessible routes, walkways, utilities;
- c. Improvement of natural resource features needed for public recreation use; and
- d. Acquisition of land and water in fee title or by easement.

Eligible land acquisition costs are determined by the fair market value as established by one or two appraisals completed according to the requirements of the State Property Office. PARTF will only cover costs associated with work completed during the project period for project elements as described in the project agreement. The only exceptions are for planning/incidental costs incurred within two years of the application deadline and for land acquisition with a waiver that has been approved by DENR.

What Costs Will PARTF Not Cover? PARTF will not cover:

- costs prior to or after the project period (see exceptions noted above);
- costs to cover items that are not included in the project scope of the agreement or in the application’s cost estimates;
- state and local sales tax (a refund of sales and use taxes paid by local governments is authorized under G.S. 105-164.14(c) and should be used)
- costs for sports equipment (balls, bats, boats, paddles, etc.);
- construction equipment such as hammers, ladders, saws or drills;
- materials and services purchased for the operation and maintenance of the project site;
- office equipment, indoor furniture and kitchen or concession stand equipment;
- financing costs associated with the project;
- costs incurred by a sponsor because of a contractor’s breach of contract;
- cost overruns;

- donated or in-kind labor, equipment usage or materials;
- costs not documented by an invoice or with other conclusive proof of payment; and
- legal fees.

When in doubt concerning the eligibility of an item, contact your regional consultant.

Using Donated Land as Match - Using the value of donated land from a private organization or individual as all or part of your local match in lieu of cash is an excellent way for sponsors to reduce the amount of cash they need to raise for a project. The donated land must be an essential part of an approved project and the property becomes subject to PARTF restrictions in perpetuity. Donated land must be clearly identified in your application and its value determined by PARTF appraisal requirements and State Property Office's review.

For full land donations, the appraised value of the land may be used as local match for the development of the approved project site or to acquire additional land at the project site as described in the project agreement and your application.

Where a landowner is willing to sell land to the sponsor for less than the appraised value (i.e. bargain sell), the amount of the donation that can be used as local match is the difference between the appraised value and the amount to be paid by the sponsor.

Examples:

1. **Full Donation** - Land valued at \$100,000 is donated to the sponsor as part or all of the PARTF project site. The donated land value will be used as local match for \$100,000 in development costs or additional land acquisition for the project site. The total project is therefore \$200,000. The sponsor is eligible for a PARTF grant of \$100,000. PARTF will reimburse 100% of development costs or additional land acquisition up to \$100,000. (Note: The donated land can also be used as a local match for any land that will be purchased for the project.)
2. **Bargain Sale Donation** - Land valued at \$100,000 is sold to the sponsor for \$50,000. Therefore, the donated land value that can be used as local match is \$50,000. The sponsor has budgeted an additional \$100,000 for project development. The total project is therefore \$200,000. The sponsor is eligible for a PARTF grant of \$100,000. PARTF will reimburse the sponsor for 50% of the actual land acquisition cost or \$25,000. PARTF will reimburse 100% of the first \$50,000 in development costs. Then PARTF will reimburse the sponsor 50% of the next \$50,000 in development costs or \$25,000.

How to Request a Grant Payment

1. **Schedule for Requesting Payments** - In any program where reimbursement is requested for a portion of the project costs, substantive accounting documentation and records are essential. There must be supporting evidence, such as an invoice, for each item of cost claimed – **estimates are not sufficient.**

Once substantial work has begun (at least \$2,500 in expenses), a sponsor may bill DENR on a quarterly basis for work completed during the quarters as follows:

By **April 30** for the quarter beginning January 1 and ending March 31;

By **July 31** for the quarter beginning April 1 and ending June 30;

By **October 31** for the quarter beginning July 1 and ending September 30; and

By **January 31** for the quarter beginning October 1 and ending December 31.

A reimbursement is calculated at the 50% rate for specified project elements and is based on project costs contained in your application and stipulated in the project agreement. **Once a grant amount is approved, the upper limit is fixed for each project element and cost overruns are solely your responsibility.** For land acquisition – if the negotiated purchase price is greater than the land value approved by the State Property Office and contained in the project agreement, **the sponsor must pay the additional land cost.** **Eminent domain/condemnation** – when lands are acquired through judicial proceedings, the price determined by the court will be accepted by DENR in lieu of any previously approved appraised value, however PARTF will not reimburse an amount higher than the approved project land cost.

Reimbursement will be limited to up to 90% of the eligible grant amount until the project is satisfactorily completed. Ten percent (10%) of the total reimbursement due for a development project will be withheld pending a final site inspection/audit and project closeout by DENR.

Many sponsors with land acquisition only projects will submit only one billing after acquiring the land as well as the new deed(s) with the PARTF restrictive clause. For land acquisition with development projects, a local sponsor 1st reimbursement billing must include the required land acquisition documentation.

2. How to Document Project Costs (see Appendix A and / or Appendix B for details):

- a. **Development Costs (Appendix A)** – The sponsor must complete, sign and date the “PARTF Request for Reimbursement” form; complete the “PARTF Detailed Expenditure Report” and provide **one** copy of each invoice that references costs for specific PARTF project elements.
- b. **Land Acquisition Costs (Appendix B)**– The sponsor must complete, sign and date the “**PARTF Request for Reimbursement**” form (see page 36), the “PARTF Acquisition Reimbursement Request” form (see page 42), complete the “PARTF Detailed Expenditure Report” (see page 39) and submit **two (2)** copies of each of the following documents:
 - Deed and/or easement for each parcel acquired. Deed or easement must contain the PARTF restrictive clause (see Pages 23 & 24).
 - Evidence of title for each parcel acquired (letter from the county or city legal officer, or certificate from the Title Guaranty Company).
 - Statement of Just Compensation **or** Offer to Acquire with Land

Donation/Waiver of Just Compensation for each parcel acquired (see Appendix B).

- Written offer to purchase (see Appendix B).
- Proof of payment. Copy of the canceled check(s) for land purchases (front and back copy)

3. Instructions for Completing Payment Forms

Depending on the project type (acquisition, development or development with acquisition), different forms need to be submitted. The forms are available in WORD and/or EXCEL format and may be e-mailed to you or downloaded from the PARTF website at <http://www.ncparks.gov/partf>. Detailed instructions on how to complete the forms are provided in Appendix A. In lieu of the PARTF Detailed Expenditure Report form, the sponsor may use a similar detailed accounting ledger organized by project elements, or a contractor's AIA form if the entire contract is only for PARTF work and the expenditures are clearly listed by project element.

Important: PARTF reimbursement request forms are required to be signed by the sponsor's chief elected official, top administrator (city or county manager) or finance director, unless the sponsor authorizes, in writing to DENR, another staff person to have signature authority for the financial matters dealing with your project agreement.

- a. **Invoices** – An American Institute of Architects (AIA) contract document or legible copies of invoices for costs incurred are necessary to serve as proof of expenses and payment. The AIA or invoices should provide an accurate and itemized listing of material and/or services rendered by project element. AIA's must include page 2, Continuation Sheet which itemizes expenditures.

At minimum, invoices must:

- be to the local sponsor and include the following:
- name and address of the vendor,
- quantity of item(s) purchased,
- description of the item(s) purchased,
- unit price, and
- total amount of each line
- must include page 2 .

If the items on the invoices are not readily identifiable by project element, please write in the item name. For instance, a part number is not acceptable; please write in the name of the item on the appropriate line.

Please note that statements and vouchers are not acceptable if they only reflect the amount due. On each invoice, note the project name and which portion of the project (i.e. project element(s)) with which the expenditure is associated.

- b. **Special Attention** - Two instances require special attention. First, the sponsor will probably have some invoices that include materials or services not

included in the PARTF project. In this case, the sponsor must identify by project element on the invoice(s) only those items that are being charged against the PARTF project (highlight PARTF costs on the invoice in “yellow”).

Second, vendor statements are acceptable (example - price list or quotes) as cost documentation only when an invoice cannot be obtained from the vendor.

Some vendors do not use invoices. In such an instance, identify on the vendor’s statement the actual items that are related to the PARTF project. Enter the total amount of the project related purchases from each invoice (or statement) on the PARTF Detailed Expenditure Report.

- c. **For construction contracts (AIA’s)** – Prior to advertising for competitive bids, make sure to incorporate into your project’s specifications for the contractors to provide their schedule of values for proposed work to coincide with the specific project elements listed in your project agreement. This effort will greatly assist the contractor, sponsor and DENR in documenting/accounting for eligible project costs and in expediting your reimbursement payments.
- 4. Submitting a Payment Request** - In order to receive reimbursement, the items in the billing forms must be correct, completed, well documented, and within the limits of fund assistance. **If all forms and documents are acceptable, the sponsor can usually expect reimbursement with 45 days.** To avoid delays, contact your regional consultant if you do not understand a billing procedure. Please remember, DENR processes reimbursement requests on a quarterly basis.
- 5. How a Payment Request is Reviewed** – Your regional consultant will perform an initial review/audit of the accounting documentation submitted by the sponsor with their reimbursement request. Any audit concerns or exceptions found by the regional consultant will be submitted in writing to the sponsor and must be addressed by the sponsor to the satisfaction of the regional consultant. After audit concerns are addressed, the regional consultant will approve, sign and date the reimbursement request form and send it to the PARTF central office. PARTF central office staff will perform a second review/audit the accounting documentation.
- 6. Receiving a Grant Payment** – After audit approval by the PARTF central office staff, a PARTF reimbursement payment request will be made to the DENR Controller’s Office. As part of the State’s EProcurement System, The Controller’s Office will issue a electronic check and to be deposited into the sponsor’s bank account. To find out if your local government is registered and eligible to receive electronic payments, please contact the State Controller’s Office at (919) 707-0795.

When Your PARTF Project is Completed

1. **Requesting a Final Payment** – Final reimbursement should be marked as “final” and submitted once all land acquisition and/or construction has been completed and all payments to contractors and supplies have been made and documented, but no later than the date specified in your project agreement (**45 days** after the end of the project period). By submitting the final reimbursement request, you are certifying to DENR that the project is complete. Completed projects will be inspected by your regional consultant and audited before a final payment is made. **If your project does not pass the final inspection by your regional consultant, you will receive a letter stating the problem(s) and recommendations for correcting the problem(s). Your final reimbursement payment will not be processed until all inspection problems have been remedied and approved by your regional consultant.**

Also, two (2) updated “**As-Built Site Plan**” will be required to be submitted with your final PARTF reimbursement request if: 1) your park’s PARTF-assisted layout differs from the site plan submitted with your application, or 2) your project was approved for a PARTF amendment that either added and/or deleted recreational or support facilities from your project agreement (see Appendix C).

2. **Audit Procedures & Retaining Financial Records** – Your regional RRS consultant will check your reimbursement request to ensure the reimbursement forms and documentation submitted are complete and mathematically correct, and that you have satisfied major program requirements – i.e., costs claimed were incurred within the project period. For development projects, the regional RRS consultant will inspect the completed project for compliance with the terms of the project agreement. The State Auditor’s Office staff will periodically review in detail samples of projects within a grant program for compliance with the program’s reimbursement requirements and procedures. This may include contacting you for additional details about the administration of your grant project or requesting that you have your project documentation files organized and available for a detailed financial audit. For development projects, the State Auditor’s Office might review a contract for compliance with advertisement and bidding procedures and to compare scope and cost details to invoice and payment documentation.

For PARTF, the sponsor shall retain all books, records, documents, data and other materials relevant to the project agreement and project for **at least 5 years** after completion of the project. These records shall be subject at all reasonable times to inspecting, reviewing, copying or audit by personnel duly authorized by DENR and the State. The records must support all project costs and billings submitted to DENR. Land acquisition documentation must be maintained in perpetuity by the local sponsor.

If an auditor’s inspection of records discloses any improper or incorrectly claimed reimbursement, DENR shall issue a management decision on a proposed corrective action within two months after receipt of this report. If any litigation, claim or audit is started before the expiration of the five-year period for record retention, the records shall be retained until audit findings have been resolved.

Non-compliance with Project Agreement - If DENR finds that a project has not been satisfactorily completed by the end of the project period or that the sponsor has violated a term of the project agreement, DENR may terminate the grant and seek reimbursement of the State's share or a portion of the State's share previously paid to the sponsor.

DEVELOPMENT PROJECTS

Before You Start The Project

1. Familiarize yourself with program recommendations and requirements. These include:

ADA Compliance - All PARTF assisted facilities and areas must comply with the Americans with Disabilities Act Accessibility Guidelines (ADAAG). ADAAG requires that all aspects of each project be accessible or "barrier free". There are some fundamental differences in how accessibility in the outdoors is accommodated compared to the indoors or the built environment. While restrooms, picnic shelters, community centers, and parking lots, for example, need to follow detailed ADAAG requirements, other improvements such as trails, boat landings and swimming beach areas have varying degrees of accessibility required depending on the type of facility and characteristics of the site.

A good rule of thumb to follow is a person with a disability must be able to travel from a designated accessible parking space to each and every PARTF assisted facility (both recreational and support facilities) and they must be able to do this unassisted. Go to www.access-board.gov for guidelines on designs that are accessible.

Site Design Recommendations – Project design should minimize adverse impacts on the environmentally sensitive features of the park site by:

- Locating proposed facilities in already cleared areas, to minimize additional clearing of trees and vegetation;
- Locating proposed facilities where topography and soil conditions are suitable, to minimize grading, excavation, fill and drainage of the site;
- Retaining, enhancing or establishing vegetative buffers, or incorporating other site-sensitive techniques, to minimize impacts on sensitive areas such as wetlands, forests, steep slopes, endangered or threatened species habitat, and aquifer recharge areas;
- Trails along creek banks and lake shores should be set back far enough so they do not cause or exacerbate erosion of banks;
- Impervious vehicular and pedestrian use areas such as roads, walkways and parking areas should not impede natural surface water drainage and storm water retention areas should be used; and
- Disturbance of native vegetation should be avoided or minimized during site preparation to preserve existing native trees, shrubs, grasses and forbs, as well as aquatic and wetland systems. We encourage the use of native plants in

landscaping or revegetation plans.

Building Design – In the design of large buildings, such as community/recreation centers, aquatic centers and environmental education centers, DENR encourages the use of U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED).

Electrical lines – All PARTF assisted electrical or communication lines must be installed underground. Existing lines should be buried, removed or relocated as necessary. DENR recommends future lines to be placed underground.

Playgrounds – For projects including a playground, sponsors are encouraged to adhere to ADAAG requirements and the guidelines established by the U.S. Consumer Product Safety Commission's Handbook for Public Playground Safety (Publication #325). CPSC's publication is available at www.cpsc.gov.

Only new, commercial grade equipment, constructed of materials that have proven durable in all types of weather and can withstand heavy public use should be used. Areas under playground equipment must be surfaced with an impact adsorbing material (such as poured-in-place, tiles and loose-fill material) and accessible for children with disabilities.

Understand and Follow Bidding Laws and Contract Requirements

Sponsors of PARTF grants must comply with the general provisions of the project agreement and applicable local and state bidding/contracting requirements. Although contracting and bidding procedures may be complicated, they are more easily satisfied if the sponsor is knowledgeable of the requirements at the time bidding documents are being prepared. Failure to comply with them may jeopardize your ability to receive reimbursement payments. Sponsors need to consult with their attorneys to ensure that they are complying with all bidding and contracting requirements. Sponsors may also want to contact the N.C. League of Municipalities.

The main competitive bidding requirements for local governments are contained in Article 8 of Chapter 143 of the North Carolina General Statutes (G.S.). Most of the formal bidding requirements are set forth in G.S. 143-129 and the informal requirements can be found in G.S. 143-131. These statutes apply to the expenditure of public money within established dollar limits and on certain types of contracts. Also, the Local Government Budget and Fiscal Control Act (G.S. 159-7 through 159-42) imposes a number of requirements that must be observed in the contracting process. UNC School of Government provides an overview of local government's contracting and purchasing requirements at the website: <http://ncinfo.iog.unc.edu/pubs/electronicversions/pdfs/purch.pdf>

Since DENR audits conducted after project completion may require paybacks due to improper contracting or bidding procedures, it is most important that the procedures be followed. The following documentation must be retained in your project file for at least 5 years for all development projects where construction contracts are involved:

- Bid advertisements

- Bid specifications and construction plans
- Summary of Bids
- Bid Proposal
- Executed Construction Contracts
- Contractor's Invoices
- Contract Change Orders
- Proof of Payment

Permits Required

DENR's primary responsibility is the lead stewardship agency for the preservation and protection of North Carolina's outstanding natural resources. In doing so, the department regulates all activities that may impact the state's natural resources and environment through the administration of its environmental permitting programs. Depending on the extent of your project's development and the site's natural resources, various state and local permits will be required prior to development beginning on your project. Some typical permits may include: erosion and sedimentation control; storm water; 401 water quality wetlands certification; non-discharge; water quality stream determination; demolition permit; and CAMA permit for the 20 coastal counties. It is the sponsor's responsibility to obtain all the necessary permits required for your project.

Eligible Development/Renovation Project Costs

Materials and services in the project scope of the project agreement and identified in the application's project costs may be credited as eligible PARTF expenditures. Examples of materials/services purchases include:

- a. bid advertisements
- b. design/engineering/architectural services and contractor services directly related to and required for completing the project
- c. permitting and environmental reviews
- d. demolition
- e. site preparation
- f. lumber
- g. sand/gravel
- h. hardware
- i. paint
- j. landscape materials
- k. rental of equipment in completing the project
- l. signs and equipment (fixed, physically attached and permanent improvement such as soccer, football and basketball goals, backstops, playground equipment, tennis posts and nets, etc.)

Planning costs required for completing your application are also eligible if they are incurred within two (2) years before your application was submitted. These planning costs include: site planning, preparing project costs and environmental site information.

Ineligible Development Costs

Only costs identified in the application's project costs and in the project agreement are eligible for PARTF reimbursement. The costs of construction tools (such as hammers, shovels, ladders, saws, drill bits, etc.), sports equipment not affixed to the ground (such as balls, bats, boats, paddles, batting machines, etc.), maintenance equipment, office equipment, kitchen equipment and indoor furniture **are not** eligible as PARTF expenditures. The exception is that portable bleachers are eligible. Donated or in-kind (sponsor) services including labor, equipment usage or materials **are not** eligible for PARTF reimbursement.

Eligible Sources of Sponsor's Local Match

1. Cash from the project sponsor
2. Cash donated by a third party (foundations, organizations, businesses and individuals) to the project sponsor
3. Donations of land from a private organization or individual
4. Funds from the federal government (such as the Land and Water Conservation Fund)
Funds from other DENR and state administered grant programs)

Documenting Materials and Services with Invoices

Expenditures for PARTF project must be incurred during the project period. The sponsor must use invoices to document when the costs are incurred. Development costs are first incurred at the start of actual physical work on the project site (such as clearing the land, the beginning of construction of a building, or the delivery of material to the site), and continue through the period the work is completed. Costs can not be incurred at some earlier time when contracts are signed, funds obligated, or purchase orders issued, or at a later time when the ensuing bills are paid.

ACQUISITION PROJECTS

For PARTF, the term “land acquisition” refers to not just fee title acquisition, but also to acquisition of less-than-fee rights in the form of a permanent easement to the property. To define the two types of land acquisition, think of property ownership as a bundle of rights: the right to use the property for particular purposes; to lease, sell or give it away; to protect its natural features or develop it; and the right to exercise all or none of these rights.

Types of PARTF Land Acquisition:

1. **Fee Title Acquisition** – Fee title acquisition is the outright purchase of land including the transfer of title to the property and all the rights associated with ownership as defined above. Another way of stating this is that an absolute or fee-simple estate is one in which the owner is entitled to the entire property (i.e. the entire bundle of rights).
2. **Public Use/Conservation Easement** - A Public Use/Conservation Easement provides protection from land use that could damage or destroy the property’s scenic, recreational, ecological or natural resource values. Each easement is tailored to fit the natural characteristics of the land, the personal needs of the landowner, and the objectives of the PARTF program. The easement is a permanent, recorded deed restriction which conveys some of the land rights associated with ownership of property to another party (i.e. the sponsor). The easement stays with the property permanently and is binding on all future land owners. For PARTF, it is a voluntary legal agreement between a land owner and sponsor that conveys specific rights and permanently limits specified current and future uses. Generally, the purpose of a public recreation use and conservation easement is to protect/conservate the habitat or natural resources while allowing some form(s) of public access and recreation use of the property. As with other easements, the landowner still retains ownership and many uses of the property.

Once the sponsor and landowner have negotiated the easement document which lists mutually agreed-upon use and development restrictions and specifies which parcels (or portions of parcels) are covered by those restrictions and uses, the sponsor is required to submit a copy of the easement to your regional consultant to review for compliance with PARTF’s public recreation use requirements. The regional consultant will review the easement and submit comments and the easement document to DENR for review and approval by DENR’s legal counsel.

If the landowner or future owner violates the easement – perhaps by building a structure that the easement does not permit or using the area as a dump site – the easement holder (sponsor) is required to work with the landowner to have the violation corrected, in court if necessary.

If You Purchased the Property Prior to the Grant Award

If the DENR approved a waiver to allow you to purchase the property to protect your acquisition's eligibility before receiving a grant award, then upon execution of the project agreement you may file your reimbursement claim for the project's acquisition costs. You must submit the waiver approval letter along with all required land acquisition documentation as noted in this manual with your first reimbursement request.

Before You Purchase

1. Familiarize yourself with the PARTF program requirements contained in your project agreement.
2. Make sure you understand PARTF's land acquisition guidelines and requirements. Consult with your legal counsel to ensure you are in compliance with these requirements.

Eligible reimbursement for land acquisition is determined by the fair market value as established by the appraisals reviewed and approved by the State Property Office. For acquisition projects, closing costs cannot be incurred until the project agreement has been executed, due diligence and due care actions (if applicable) have been completed. The only exception is for waivers noted above.

Basis for Calculating the Grant Award

Since the transfer of ownership in real property can be a protracted process which differs under various state laws and procedures, the relationship of acquisition costs to project period is separated into two elements: a) the date when the acquisition cost is incurred and, b) the date when the cost is eligible for PARTF reimbursement.

Acquisition costs are incurred on the date when the earliest of any of the following transactions takes place:

1. The sponsor accepts deed or other appropriate conveyance, such as an easement;
2. The sponsor makes full payment for the property;
3. The sponsor makes first payment in a series of space or time payments;
4. The sponsor makes the first or full payment as stipulated in an option agreement;
5. The sponsor makes first partial or full payment to an escrow agent.

The above transactions will be used to determine whether an acquisition cost is incurred within the project period. Eligible acquisition costs will be reimbursed only after the sponsor has made payment and received satisfactory title and support documentation for the property.

Eligible Acquisition Costs

Eligible costs include reasonable costs for the following items related to the purchase of property:

1. Costs of land surveys proposed for purchase.*

2. Cost of appraisals or statement of values as submitted with your application.*
3. Other legal fees associated with the proposed purchase of land.*
4. Purchase of fee simple title to the property as defined in the approved appraisal by the State Property Office.
5. Relocation payments, if applicable.**
6. Recording fees.
7. Title evidence.
8. Required historical and cultural assessments.
9. Environmental inspections and assessments

* Incidental land acquisition costs include appraisals, title searches, surveys and attorneys' fees. These costs are eligible if they are incurred after the project agreement is executed or within two years of the application deadline and appear in your project costs submitted with your application.

** Relocation is a program mandated by state law that protects landowners and tenants displaced by projects that receive government funding. Very generally, the law requires that when a land purchase causes a displacement of a landowner or tenant from his/her home, farm or business, that person may be eligible for certain services and financial assistance from the buyer. If applicable, sponsors are required to comply with state relocation procedure laws. Contact your regional consultant for further information.

Ineligible Acquisition Costs

1. Costs for administration of the project by the sponsor or a consultant.
2. Brokerage fees paid by the buyer.
3. Real estate transfer fees/taxes.
4. Environmental cleanup costs.
5. Back taxes on the land owed by the previous landowner.
6. Other costs not listed as eligible.

Eligible Sources of Sponsor's Match

1. Cash from the project sponsor.
2. Cash donated by a third party (foundations, organizations, businesses and individuals) to the project sponsor.
3. Donation of land from a private organization or individual. The donated land value can only be used as local match for PARTF development on said property.
4. Funds from the federal government (such as the Land and Water Conservation Fund).*
5. Funds from other DENR and state administered grant programs.*

* For (4) and (5), the local matching share of an approved PARTF project may consist of other federal and state financial assistance only where the statutory provisions of the subsequent grant programs explicitly allow recipients to use such assistance to match state funds.

Donation of Land as Sponsor's Match

Rules surrounding property donations can be confusing at first glance so discuss your particular situation with your regional RRS consultant to confirm how your grant's reimbursement will be calculated. A sponsor can use the appraised value of donated land as all or as part of the 50% local match for the project. The value of the donated contribution is determined by either:

1. Fee simple donation (full donation) – the appraised value of the property as approved by the State Property Office, or
2. Bargain sale (partial donation)– the difference between the appraised value approved by the State Property Office and the actual cash purchase price for the land.

For the donated land to be eligible, the following conditions must be met:

1. The land must be in private ownership for at least the past five years;
2. Donated land will be all or part of the project area to be developed with your PARTF grant;
3. A commitment of the donation was included in your application and the donation will be made after the project agreement is executed (except for approved waivers);
4. Donated land does not include restrictions or limitations that are inconsistent with PARTF requirements;
5. Land donation must be part of your application and not be previously dedicated through platting or re-zoning to public recreation use. Lands obtained through a subdivision parkland dedication ordinance or required by other local ordinances are not eligible for PARTF donation purposes.

Recording a Deed or Easement Restriction

As part of the acquisition process, the deed or easement for each parcel acquired must be recorded with restrictive language that recognizes the state's interest in the property and the property's perpetuity use for public recreation. The deed or easement must contain the relevant PARTF conversion protection restrictive clause listed below as required by your project agreement.

1. For property purchased for a PARTF grant (including bargain sale)

“This property was acquired with State financial assistance from the N.C. Parks and Recreation Trust Fund, and pursuant to a contractual requirement this property may not be converted to other than public recreation use (whether by transfer, sale or in any other manner) without approval of the N.C. Department of Environment and Natural Resources.”

2. For property donated as local match for a PARTF grant

“This property was donated as part of a grant from the N.C. Parks and Recreation Trust Fund, and pursuant to a contractual requirement this property may not be converted to

other than public recreation use (whether by transfer, sale or in any other manner) without approval of the N.C. Department of Environment and Natural Resources.”

3. For an easement purchased for a PARTF grant (including bargain sale)

“The property identified in this easement (or deed) was acquired with State financial assistance from the N.C. Parks and Recreation Trust Fund and shall be dedicated in perpetuity for recreational use by the general public unless a conversion is approved by the N.C. Department of Environment and Natural Resources.”

4. For an easement donated as local match for a PARTF grant

“The property identified in this easement (or deed) was donated as part of a grant from the N.C. Parks and Recreation Trust Fund and shall be dedicated in perpetuity for recreational use by the general public unless a conversion is approved by the N.C. Department of Environment and Natural Resources.”

Documents to be Kept in the Sponsor’s Project File

The following documents must be maintained in the project file for a minimum of five (5) years:

1. PARTF contract and any executed amendments and * items in perpetuity:
2. Survey(s).
3. Appraisal(s).
4. Deed and/or Easement for each parcel acquired. *
5. Evidence of title for each parcel acquired (letter from the county or city legal officer, or certificate from the Title Guaranty Company).
6. Statement of Just Compensation or Offer to Acquire with Land Donation/Waiver of Just Compensation for each parcel acquired. (See Appendix B).
7. Written offer to purchase. (See Appendix B).
8. Proof of payment. Copy of the canceled check(s) for land purchases (front and back copy).
9. If applicable, relocation documentation.
10. If applicable, required historical and cultural assessments applicable, environmental inspections and assessments.
11. If applicable, delayed development plan.

Land Acquisition with Delayed Development

When PARTF funds are used to acquire land for public recreation use, the use should begin as soon as possible – within a few months of its acquisition. The same holds true for planned development projects on land being acquired with PARTF funds – they should begin as soon as possible. We recognize that for a variety of reasons there are instances when public recreation use of the land must be accomplished in phases or delayed for a few years. Delayed development for up to **5 years** from the date your PARTF project agreement was signed is permissible if explained in your application and approved by DENR. However, initial

recreation development of PARTF acquired land is contractually required to begin within 5 years of your contract's starting date.

In the interim, prior to development, it is important that the property be **open to the public** to the greatest extent possible for those recreation uses the land is capable of supporting or that can be achieved with minimum of public investment. Interim public recreation use must at least allow public access (parking) on the site and some form of recreation such as a picnic area with amenities or a walking trail. To preserve your project's eligibility, contact your regional RRS consultant to discuss your plans if you anticipate delaying development and those plans were not a part of your PARTF application.

AMENDMENTS

Changes in Project Scope, Costs or Timeline – Amendments.

1. **Project Scope** -You are expected to complete your project as outlined in the original project agreement and Attachment B. All projects must be completed by the project agreement's expiration date. If you need to change or otherwise alter your project, please report and discuss any proposed changes to the project with your regional consultant.

Any change that significantly affects the project elements, as defined in the project agreement, requires prior approval by DENR. These changes include adding or deleting project elements and making significant changes to the specifications of a project element. For example, reducing the size of a recreation center. These types of changes usually result in the need to amend the project agreement. Different procedures for requesting and obtaining approval for changes are required, depending on the change, when the change is proposed and how it will alter the original purpose of your project's application and project agreement. We encourage you to discuss any type of proposed change with your regional consultant before submitting a written request.

To request an amendment to the approved project scope, you are required to submit:

- a. Two copies of an official justification letter describing why it is necessary that the project scope be amended and how the proposed change will impact the project. For changes that propose a deletion or a significant reduction in size or number of a project element, please describe the local sponsor's review and rejection of alternatives to the course of action being proposed. The letter must be on official letterhead and dated and signed by the Mayor, Chairperson, or County/City/Town Manager.
- b. Two dated (month/year) copies of your Revised Project Costs which reflect any cost changes by project element as identified in your application. For the proper format to use, see Example #1 on page 27.
- c. As appropriate, submit two dated (month/year) copies of your project's revised site plan that reflects the proposed amendment (See Appendix C for proper color coding).

All requests for changes must be submitted in writing to your regional consultant at least **60 days** prior to the change being made and/or the end of the project agreement's expiration date. If your request is approved, you will receive a project amendment from DENR for your signature to be returned to DENR for execution.

Project scope changes will only be approved if the resulting changes ensure that the project would have been competitive for funding in the review in which it was approved by the Parks and Recreation Authority (i.e. requesting to delete a recreational facility is strongly discouraged). Initiating a change in the project scope or project costs prior to notifying DENR will jeopardize your reimbursement for the expense. Also, you run the risk of having to remove the changes, at your own expense, should the changes not be approved. Amendments to increase the grant amount will **not** be allowed. Project agreements cannot be extended or modified after they terminate (i.e. after the project period ends).

2. **Project Cost Changes** – You are expected to complete your PARTF project within the project costs approved in your application. You are required to notify your regional consultant for any changes to your project costs. Changes to your application's approved project costs for any project element require prior DENR approval to ensure the project has not changed significantly from that proposed in your application.

Please notify your regional consultant for any proposed cost changes. Also, note the cost change(s) in the "Comment" section in the Detailed Expenditure Report during your reimbursement request.

To request an amendment to the approved project costs, you are required to submit:

- a. Two copies of an official justification letter describing the project cost changes needed and sound reasoning for the change(s). The letter must be on official letterhead and dated and signed by the Mayor, Chairperson, or County/City/Town Manager.
- b. Two dated (month/year) copies of your Revised Project Costs reflecting the proposed cost changes by project element as identified in your application. For the proper format to use, see Example #2 on page 28.

Example 1
Revised Project Costs (For Amendment)
Green Park - Town of Parkland
December 2015

Project Elements (Include specific units - sizes, numbers, lengths, etc. - for each item.)	Unit	Original Cost	Revised Cost
Building and/or Renovating Costs			
Picnic Shelter (2 grills, 4 tables, and 2 trash receptacles) and Rest Room Renovation - 20 x 30 feet	1	\$127,000	\$127,000
Playground (jungle gym, swings, slides, accessible surfacing)	1	\$80,200	\$100,000
Walking Trail - 6' wide, paved trail with 3 benches (Reduce the length from 2,400 lf to 1,400 lf)	1,400 linear ft	\$20,000	\$15,800
Little League Ballfield with irrigation, dugouts, fencing, and benches	1	\$239,000	\$299,000
Concession/Restroom Building – Delete	1	\$95,000	\$ 0
Parking Lot - paved for 75 cars – Reduce to 50 cars	1	\$73,100	\$75,000
Tennis Court Renovation – Add	2	\$ 0	\$125,000
Landscaping	Lump Sum	\$19,000	\$19,000
Costs to Develop the Project		\$653,300	\$760,800
Contingency for the Cost of Building / Renovating			
Contingency (not to exceed 5% of the cost to develop the project)	5%	\$32,665	\$32,665
Costs to Acquire Land			
Land Purchased	10 acres	\$56,400	\$56,400
Costs Related to Building, Renovating and Planning			
Planning / Incidental Land Costs- Construction management, site planning, preliminary design, survey and appraisals, or the cost of preparing the application (not to exceed 20% of the cost of the project)	7.4%	\$52,517	\$52,517
Total Project Cost		\$794,882	\$902,382
Total PARTF Grant Request		\$397,441	\$397,441
Total Local Match		\$397,441	\$504,941

The revised project costs “example”: 1) deletes the concession/restroom building; 2) adds the renovation of 2 tennis courts; 3) reduces the length of the trail and size of the parking lot; and 4) changes the project cost for 4 project elements (playground, trail, little league ball field, and parking lot). Also, it increases the amount of the local match. **Planning/incidental land costs and contingency are required to remain the same as approved in the original project costs.**

Example 2
Revised Project Costs (Cost Adjustment, No Amendment)
Green Park - Town of Parkland
December 2015

Project Elements (Include specific units - sizes, numbers, lengths, etc. - for each item.)	Unit	Original Cost	Revised Cost
Building and/or Renovating Costs			
Baseball Field – 300 Ft with dugouts, fencing and lights. Delete scoreboard	1	\$175,000	\$165,000
Playground (jungle gym, swings, slides, accessible surfacing)	1	\$50,000	\$80,000
Walking Trail - 6' wide, paved trail with 3 benches (Reduce the length from 2,400 lf to 1,400 lf)	1,400 linear ft	\$73,000	\$68,000
Tot Lot – Reduce the size	1	\$56,000	\$40,000
Multi-Purpose Field	1	\$50,000	\$ 95,000
Concession Building – Reduce the size	1	\$93,000	\$80,000
Landscaping	Lump Sum	\$29,000	\$19,000
Costs to Develop the Project		\$526,000	\$547,000
Contingency for the Cost of Building / Renovating			
Contingency (not to exceed 5% of the cost to develop the project)	5%	\$26,300	\$26,300
Costs Related to Building, Renovating and Planning			
Planning / Incidental Land Costs- Construction management, site planning, preliminary design, survey and appraisals, or the cost of preparing the application (not to exceed 20% of the cost of the project)	7.4%	\$38,924	\$38,924
Total Project Cost		\$591,224	\$612,224
Total PARTF Grant Request		\$295,612	\$295,612
Total Local Match		\$295,612	\$316,612

All requests for changes must be submitted in writing to your regional consultant at least **60 days** prior to the change being made and/or the end of the project agreement's expiration date. If your request is approved, you will receive a project amendment document from DENR for your signature to be returned to DENR for execution. **Planning/incidental land costs and contingency are required to remain the same as approved in the original project costs.**

3. **Time Extensions** – You are expected to complete your PARTF project within the 3-year project period stated in your project agreement. However, there may be a time when, for reasons beyond your control, this is not possible. In such cases, a sponsor may request a time extension (either 6 months or 12 months). Factors considered in determining whether to grant or reject an extension include how much progress has been made towards completion of the project and to what extent delays were outside of your control, such as natural disasters.

Project period extensions always require an amendment to your project agreement and must be submitted at least **60 days** before your project agreement's expiration date to your regional consultant. Time extension requests must include two (2) copies of the following information on official letterhead signed by the Mayor, Chairman, or County/City/Town Manager:

- a. Brief summary of progress on project elements to date (percent complete).
- b. Account of expenditures to date for each project element.
- c. Sound justification (circumstances beyond your control) for why more time is needed.
- d. Proposed new development timeline for the time extension period including proposed completion dates for each project element.
- e. Proposed budget modifications (revised project costs), if applicable.

Termination. Unforeseen circumstances may occur and make it impossible for the sponsor to start or complete a project according to the project agreement between DENR and the sponsor. Such circumstance may result in the need to terminate a project. The termination of a project means the cancellation of PARTF assistance, in whole or in part, for a project at any time prior to its date of completion. Projects may be terminated for either convenience or for cause.

1. **For Convenience** - DENR may terminate a project in whole, or in part, when both DENR and the sponsor agree not to continue the project. Both DENR and the sponsor shall agree upon the termination conditions, including the effective date and, in the case of partial termination, the portion of the project to be terminated.

To terminate a project for convenience, the sponsor will be required to:

- a. Solicit public comments concerning the termination request via a public hearing or public meeting.
- b. Approve a resolution requesting termination/withdrawal of their PARTF contract after consideration of public comments (See Appendix E).
- c. Send a written termination request from the sponsor's chief elected official to DENR that addresses sound local circumstances for the termination request and the public comments received.
- d. Send a copy of this letter to the sponsor's legislative delegates.
- e. Attach records of the public hearing/meeting and approved resolution to the request for termination letter.

Your regional consultant and PARTF staff will review the request. If approved, DENR will amend the project agreement to reflect the conditions of the termination and send a copy to the sponsor for immediate action.

2. **For Cause** - Project assistance may be terminated in whole or in part at any time within the project period whenever, in DENR's judgment, a sponsor has failed in a material respect to comply with the terms of the project agreement. Such action will be taken only as a last resort. DENR will promptly notify the sponsor in writing of the determination and the reasons for termination, together with the effective date. Payments made to the sponsor or recoveries by DENR under projects terminated for cause shall be in accord with the legal rights and liabilities of both DENR and the sponsor.

If the sponsor has received PARTF funds, the termination either for cause or convenience requires that:

- the project in question be brought to a state of recreational usefulness (i.e. a useable recreation area) as agreed upon by DENR and operated for public use according to the project agreement, or
- all funds provided by DENR to the sponsor be returned.

After termination, the sponsor shall not incur new obligations for the terminated portion of the project and shall cancel as many outstanding project obligations as possible. Within 30 days of termination notification, the sponsor will be required to submit project accounting documentation pursuant to the policies and rules of the PARTF program to DENR for audit and determination of eligible costs incurred prior to project termination.

OPERATION AND COMPLIANCE RESPONSIBILITIES

Self-Certification Inspections - A sponsor must operate a PARTF-assisted facility for public use for at least 25 years. At least once every five years during the 25-year period, you will be required to conduct a site inspection on behalf of DENR to ensure your PARTF-assisted facilities are well maintained and being operated for public recreation purposes and that all applicable PARTF regulations are being met. Your assistance with these inspections is in keeping with the PARTF project agreement that you signed with DENR. DENR will send you the inspection report form and a copy of your site plan to assist with your inspection. The inspection report must be completed and returned to DENR within 60 days of its receipt.

Operation and Maintain Responsibilities - Your obligations under your project agreement do not end with final reimbursement and close-out of the financial portion of the grant. Sponsors have long-term obligations that pertain to both facilities/areas developed with PARTF assistance and land acquired with PARTF assistance. Your obligations regarding PARTF facilities and areas endure for 25 years. The sponsor agrees to maintain and operate PARTF assisted facilities/areas at the project site for public recreation use for a minimum of 25 years after project completion.

The sponsor agrees to the following requirements:

1. Maintenance of the facilities/areas, so they are attractive, inviting and safe to the public.
2. Compliance with all applicable laws and regulations.
3. Keeping the project area/facilities open and accessible for public use at all appropriate times, based on the type of facilities. Full or partial closure of the project area or facilities to public use is a significant violation of the sponsor's obligations under the project agreement. Extended, temporary closures for renovation or other purposes may be acceptable, but should be approved by DENR before being implemented.
4. Not instituting membership or annual permit systems without offering a daily use fee for non-members. Differences in admission and other fees may be instituted on the basis of residence, but non-resident fees cannot exceed twice the amount charged to residents.
5. For PARTF land acquisition, keep the project site in public recreation use in **perpetuity**. Adding any non-recreation facility or uses to the project area, including any government buildings (such as town hall, civic center, fire stations), utility structures (including water, communication and cellular towers), streets/highways and landfill or storm debris uses are considered a **conversion** of the project area to non-recreation use. **Conversion of park areas acquired with PARTF assistance is strongly discouraged and is a very time consuming and costly mitigation process for the sponsor.**

Conversions require prior DENR approval and the implementation of specific mitigation measures as approved by DENR (**See Appendix D**). Mitigation measures normally

include a requirement to replace the parkland with new parkland of equivalent recreational or natural resource value and of equal or greater monetary value at the time of the conversion. Contact your regional consultant to discuss any potential conversion situations long before the sponsor considers taking action.

6. Obtain DENR approval to discontinue operation of any PARTF assisted facility or area prior to the end of the 25- year period required for public recreation operation.

If the project is rendered unusable for any reasons whatsoever, the sponsor agrees to immediately notify their regional consultant of said conditions and to make repairs, at their own expense, in order to restore use and enjoyment of the project site by the public.

Your obligation for land acquired by PARTF, either in the form of fee simple acquisition, easement, bargain sale or donation, endure in perpetuity. The land must be used in perpetuity for only public recreation purposes. For easement, no amendment will be allowed that is inconsistent with the purposes of the public recreation use/conservation easement or affects the perpetual duration and use of the property for public recreation.

The sponsor agrees not to discriminate against any person on the basis of race, sex, color, national origin, age, residency or ability in the use of any property or facility acquired or developed with PARTF assistance.

Modifications to PARTF Site After Completion. Your project area is defined by the legal description (deed or lease) and site plan submitted with your application or the as-built site plan submitted with your final reimbursement request. All project scope items constructed or purchased as part of your PARTF project must be located within the project area. Any changes to PARTF-assisted facilities/areas in the project area will require an amendment to your project agreement and will require DENR approval. See page 25 for details of how to submit a project amendment.

Appendix A

North Carolina Parks and Recreation Trust Fund

Instructions for Submitting Requests for Reimbursement

General Instructions

- 1) PARTF grant payments are made to a grant recipient on a reimbursement basis for up to 50% of the total cost of the project. This means that the grant recipient must have funds available to cover grant expenditures until reimbursement payments are made.
- 2) All expenditures must be related to work elements listed in the project scope of the PARTF project agreement. Expenditures for items that are not listed in the project scope are not eligible for reimbursement.
- 3) Expenditures that are eligible for reimbursement must occur after the Department of Environment and Natural Resources and the grant recipient have signed the PARTF project agreement and before the end date of the project period. (see page 7 for exceptions)
- 4) To request a reimbursement, a grant recipient submits two documents, a Request for Reimbursement and a Detailed Expenditure Report to the appropriate Regional Consultant.
 - a) Request for Reimbursement – This document contains information that identifies the grant recipient, PARTF project, and the reporting period covered by the request for reimbursement. It also includes the total expenditures for the current reporting period, the total expenditures that the grant recipient has made to date, and the amount of the reimbursement payment being requested. Please refer to the “Request for Reimbursement Instructions” on page 35.
 - b) Detailed Expenditure Report – The grant recipient uses this report to document the expenditures related to the grant as well as to describe the progress toward completing the project scope. Please refer to the “Detailed Expenditure Report Instructions” on page 35.
- 5) The PARTF program will review the information submitted and approve the amount of the reimbursement payment.
- 6) A grant recipient may submit a request for reimbursement once per quarter.
- 7) Each request for reimbursement must be at least 5 percent of the total grant amount or \$2500, which ever is greater.
- 8) The grant recipient must complete the scope of work for the project before submitting the final request for reimbursement. The PARTF program will retain at least 10 percent of the grant amount for the final reimbursement payment.
- 9) Be sure to provide all required signatures and all invoices to document expenditures. Requests for payment will not be processed if these are missing.
- 10) Submit one copy of all documents to your Regional Consultant. The grant recipient should also keep a copy of all records.

Instructions for the Request for Reimbursement

Project Information

The following information should be copied from the PARTF project agreement:

- Grant recipient's (Grantee's) name
- PARTF project number and **DENR contract number**
- Project title
- Contract Start Date and End Date (Period covered by the project agreement)

Provide the following information as well:

- Reporting Period Start Date and End Date– These dates must be within the start date and end date of the project period.
- Request Number: The grant recipient numbers the requests for reimbursement consecutively (example: 1, 2, 3, etc.).
- Type of Request: All requests for reimbursement payment are partial request until the final request. The final request for reimbursement is submitted by the grant recipient after the project has been completed.

Summary of Expenditures

- A. Total expenditures for this request for reimbursement (based on the invoices submitted with this request). This total must match the total expenditures from the Detailed Expenditure Report.
- B. Total expenditures to date for the PARTF grant.

Amount of this Request for Reimbursement

- C. 50 percent of total current expenditures.

The PARTF program will approve the amount of the reimbursement payment. Until project completion, the PARTF program can only reimburse 50% of the approved project cost for each project element.

Certification and Signature

An authorized local government representative (chief elected official, county or city manager or finance director) must sign and date the certification statement that is included with the Detailed Expenditure Report.

NC Parks and Recreation Trust Fund (PARTF) Project Request for Reimbursement

Project Information

Grantee:		Project Number / DENR Contract Number:	
Project Title:			
Project Period Start Date:	Reporting Period Start Date:	Request Number:	
Project Period End Date:	Reporting Period End Date:	Type of Request: (check one) Partial Final	

Summary of Expenditures

A. Total Expenditures for this Request for Reimbursement	\$
B. Total Expenditures to date	\$
C. Amount of this Request for Reimbursement (50% of A)	\$

Certification: I certify that this information is correct and based on generally accepted local government accounting standards and principles. Expenditures are based on actual payments of record for the purpose of and in accordance with the terms of the grant contract. The funds requested are for reimbursement of costs during the time period indicated above and does not duplicate a previous request. The documentation will be retained in our files for future audits. The contractors used on the project were selected according to local government bidding requirements.

Authorized Representative (Print or Type): Name: Title:	Telephone Number:
Signature of Authorized Representative	Date

For Department of Environment and Natural Resources Use Only

Approval for Payment by Regional Consultant	Approval for Payment by Central Office
Date:	Date

Instructions for the Detailed Expenditure Report

Provide the following information to identify the grant. This information must match the information on the Request for Reimbursement.

- Project title
- **DENR Contract number** and PARTF Project number
- Billing Request number
- Reporting Period Start Date and End Date

Instructions for Each Work Element of the Project Scope

Provide the following information:

1. The name of the project element. The work elements listed on the Detailed Expenditure Report must match the project elements listed in the project scope of the PARTF project agreement.
2. Enter the invoice number, date, and amount of each invoice that is being provided to document expenditures related to the work element.
3. Total expenditures for this reporting period (Column A) - This is the sum of all the invoices listed this work element.
4. Total expenditures to date (Column B) – To calculate the total expenditures to date, add Column A (total expenditures for this reporting period) plus all previous expenditures.
5. Project Cost (Column C) – Enter the total cost of the work element that was listed in your application’s project costs and approved as the maximum for reimbursement.
6. **Percent complete – Estimate the progress on the work element by estimating the percentage of the work completed. Enter 100 percent when the work element is finished.**
7. Comments – Describe the progress on the work element. Also describe any circumstances that could prevent the work element from being completed on time and according to the cost estimate.
8. Provide one copy of each invoice that is referenced for the element of the project scope. If an invoice applies to two or more elements of the project scope, make a copy for each element and indicate the portion of the invoice amount that are applied to each element.
9. Clip all the invoices for each project element together.

Page Totals

After completing the information listed above for all work elements on the page, calculate the pages totals for each column:

1. Total Expenditures For This Request For Reimbursement
2. Total Expenditures to Date
3. Budgeted Amount
4. Difference between the Total Expenditures to Date and the Budgeted Amount

Grand Totals

5. If needed, use additional “Detailed Expenditure Report” pages to document the expenditures for all the work elements in the project scope. Calculate the sum of all the page totals for the four items listed above. Enter the grand totals for items #1 (Total Expenditures For This Request For Reimbursement) and #2 (Total Expenditures to Date) on the Request for Reimbursement form.

Sample Detailed Expenditure Reports

On the following two pages are samples of a Detailed Expenditure Report as well as an example of a completed form. Electronic copies of the Detailed Expenditure Report file as well as the instructions can be downloaded from the www.ncparks.gov/partf via the link “For Grant Recipients”.

Appendix B

North Carolina Parks and Recreation Trust Fund

Submitting Requests for Reimbursement for Land Acquisition

N. C. Parks and Recreation Trust Fund

Reimbursement Request for Land Acquisition

Grantee (Local Sponsor): _____

Project Title: _____ **Project#:** _____

Project Period: _____ to _____
(Beginning Date) (Ending Date)

PARTF assistance for land acquisition will be based on the approved appraisal value by the State Property Office. If the negotiated purchase price or approved appraised value is greater than the project cost as presented in the formal application, the **Grantee must pay the additional cost.**

A. Acquisition Documentation Requirements

Supply two (2) copies of each of the following items:

1. Deed or Easement for each parcel acquired. The deed or easement must contain the relevant restrictive clause listed below as is required by the project agreement:

For property purchased with PARTF funds: “This property was acquired with State financial assistance from the N.C. Parks and Recreation Trust Fund, and pursuant to a contractual requirement this property may not be converted to other than public recreation use (whether by transfer, sale or in any other manner) without approval of the N.C. Department of Environment and Natural Resources.”or

For property donated as local match: “This property was donated as part of a grant from the N.C. Parks and Recreation Trust Fund, and pursuant to a contractual requirement this property may not be converted to other than public recreation use (whether by transfer, sale or in any other manner) without approval of the N.C. Department of Environment and Natural Resources.” or

For an easement purchased with PARTF funds: “The property identified in this easement was acquired with state financial assistance from the N.C. Parks and Recreation Trust Fund and shall be dedicated in perpetuity for recreational use by the general public unless a conversion is approved by the N.C. Department of Environment and Natural Resources”, or

For a donated easement: “The property identified in this easement was donated as part of a grant from the N.C. Parks and Recreation Trust Fund and shall be dedicated in perpetuity for recreational use by the general public unless a conversion is approved by the N.C. Department of Environment and Natural Resources.”

2. Evidence of title for each parcel acquired (Letter from the County or City Legal Officer, or certificate from the Title Guaranty Company).
3. Statement of Just Compensation or Offer to Acquire with Land Donation/Waiver of Just Compensation for each parcel acquired. (Samples below. Electronic versions available at www.ncparks.gov/partf.)

4. Written offer to purchase. (Sample below. Electronic versions available at www.ncparks.gov/partf.)

5. Proof of payment. Canceled checks for land purchases (front and back)

B. Summary of Acquisition Costs: Supply a breakdown for each parcel acquired. Attach supplemental pages if additional space is required. Place the “Actual Totals of Land Costs” on the Detailed Expenditure Report under a Work Element entitled - Land Acquisition. See page 12, section 3.b for other forms and documents required.

Cost of Land					
Parcel Number	Date Acquisition Costs were Incurred	Acres Acquired	Actual Total Land Costs	Approved Appraisal Amount	Difference (+ or -)
#1					
#2					
#3					
#4					
#5					
Totals:					

I hereby certify that the expenses represented and the accompanying documents are true and correct. I also certify the acquisition has been completed in accordance with the project agreement.

STATEMENT OF JUST COMPENSATION

This document shall be used for land acquisition projects assisted by funds from the North Carolina Parks and Recreation Trust Fund. A distinct **STATEMENT OF JUST COMPENSATION** will be required for each individual conveying property to the project sponsor.

Section A: Project Description (completed by project sponsor)

1. PARTF Project Number	2. Contract Number	3. PARTF Project Title
<input type="text"/>	<input type="text"/>	<input type="text"/>
4. Project Sponsor		5. Sponsor's Representative
<input type="text"/>		<input type="text"/>
6. Project Description/Purpose of the Acquisition		
<input type="text"/>		
7. Estate to be Acquired		
<input type="text"/>		
8. Acreage to be Acquired	10. Names and Addresses of Property Owners Conveying Property to Project Sponsor	
<input type="text"/>	<input type="text"/>	
9. County of Location		
<input type="text"/>		

Section B: Legal Description of Property (completed by project sponsor)

A legal description of the real property proposed for conveyance must be attached to this document. This legal description must be reviewed by both the landowner and project sponsor before the "STATEMENT OF JUST COMPENSATION" is signed.

Section C: Just Compensation (completed by project sponsor)

This statement of just compensation considers property location, highest and best use of said property and current market conditions affecting sale of the property. An increase or decrease in the market valuation based on proposed future use for public recreation and the likelihood the property would be acquired for such purposes have been disregarded in making the property value determination. Only elements causing value increases/decreases shall be accounted for in the stated property value.

1. Just Compensation, the State Property Office Approved Fair Market Value has been identified as:		\$ <input type="text"/>
2. Just compensation <u>includes</u> amounts for the land, improvements, severance, if any, and other elements, as follows:		
Land and Improvements	\$ <input type="text"/>	<input type="checkbox"/> Amount includes buildings, structures and other improvements
Less Damage to the Remainder	\$ <input type="text"/>	
Less/Plus Other	\$ <input type="text"/>	
TOTAL	\$ <input type="text"/>	Must be equal to amount in C(1) above

STATEMENT OF JUST COMPENSATION CONT.

Section D: Fee Simple Title (completed by project sponsor)

ONE OF THE BELOW BOXES MUST BE CHECKED

☐ Acquisition will be of fee simple title free of all liens, encumbrances and restrictions with no property interests reserved by the landowner.

or

☐ Acquisition is subject to easements, restrictions or rights, interests reserved by the landowner,* or title on attached page(s).

***Exceptions-** All easements, restrictions, and reservations must have prior approval by the NC-DENR. If this box is checked the project sponsor should not proceed with the acquisition without written approval from NC-DENR.

Section E: Project Sponsor Certification (completed by project sponsor)

1. In compliance with Section 301 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, PL 91-646, just compensation has been identified for the real property identified elsewhere in this document.
2. The Just Compensation amount is based upon a State Property Office approved appraisal prepared for the project sponsor and is not less than the appraiser's opinion of fair market value that she/he determined after a personal inspection of said property.
3. The landowners were given the opportunity to accompany the appraiser.
4. The project sponsor is prepared to commence with negotiations for the purchase of this property.
5. The project sponsor will ensure all occupants of the property are made aware of the potential relocation benefits.
6. The project sponsor will pay all incidental costs associated with the acquisition, unless the landowner(s) waives this requirement in writing.
7. This is **NOT** an offer to purchase.

Signature of Chief Elected Official

Date

Section F: LANDOWNER(S) CERTIFICATION (completed by Landowner)

1. I was offered the opportunity to accompany the appraiser during the appraisal visit to the property covered by this agreement.
2. I have received a copy of this "Statement of Just Compensation," have reviewed it fully, and have been advised of my rights under P.L. 91-646.
3. **By signing this statement, I acknowledge that I personally completed section F and have received a copy of this statement with original signatures. This statement places me under no obligation to convey the property described herein.**

LANDOWNERS SIGNATURES

I or my representative ☐ **DID;** ☐ **DID NOT** accompany the appraiser (you must check one of these boxes)

Signature of Landowner or Owner's Legal Representative

Date

It is a requirement that this completed and fully executed document be submitted with the project sponsor's **First PART F** Request for Reimbursement.

Print Form

OFFER TO ACQUIRE WITH LAND DONATION/WAIVER OF JUST COMPENSATION

This document shall be used for land acquisition projects assisted by funds from the North Carolina Parks and Recreation Trust Fund when the Cash Compensation amount is not at least equal to the value established in the **STATEMENT OF JUST COMPENSATION**.

An **OFFER TO ACQUIRE** signed by the project sponsor/buyer and the landowner/seller (or their legal representative) will be required for each property proposed for acquisition.

Section A: Project Description (completed by project sponsor)

1. PARTF Project Number	2. Contract Number	3. PARTF Project Title
<input type="text"/>	<input type="text"/>	<input type="text"/>

Section B: Project Sponsor/Buyer

1. Project Sponsor	2. Sponsor's Representative		
<input type="text"/>	<input type="text"/>		
3. Address of Sponsor	City	State	ZIP Code
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

Section C: Seller Information (Owners of record of the real property)

1. Name of Seller(s)			
<input type="text"/>			
Address of Seller	City	State	ZIP code
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

Section D: Legal Description of Property (completed by project sponsor)

A legal description of the real property proposed for conveyance must be attached to this document. This legal description must be reviewed by both the landowner and project sponsor before the "OFFER TO PURCHASE" is signed.

Section E: Just Compensation (completed by project sponsor)

Just Compensation, the State Property Office Approved Fair Market Value, has been identified as:	\$ <input type="text"/>
---	-------------------------

Section F: Offer to Purchase Price (completed by project sponsor)

An Offer to Purchase has been made in the amount of as detailed by the Seller below:	\$ <input type="text"/>
---	-------------------------

Section G: Cash Compensation and Value of Land (completed by Seller/Landowner)

1. The Landowner/Seller has voluntarily agreed to accept Cash Compensation in the amount of:	\$ <input type="text"/>
2. The difference between the established Just Compensation/Fair Market Value and the Cash Compensation amount is:	\$ <input type="text"/>

Section H: Project Sponsor/Buyer's Certification (completed by project sponsor)

By execution of this agreement, the Project Sponsor certifies the following:

1. The Project Sponsor as listed in Section B above offers to purchase the property described in Section D for the purchase price listed in Section F and to pay the incidental closing costs, unless waived by the Seller.
2. Cash Compensation in the amount listed in Section G(1) will be provided at the time of closing. The difference in the established Just Compensation, Section E and the Cash Compensation is listed in Section G (2).
3. The value as established in section G(2) may be used by the Project Sponsor to meet all or a portion of their PARTF required matching funds contribution to the project.

Project Sponsor's Legal Representative

Date

Section I: Seller's/ Landowner's Certification(completed by Seller/Landowner)

The Landowner/Seller's signature on this document certifies the following:

1. I have been informed of all my rights and benefits under the Uniform Relocation Assistance and Real properties Acquisition Policies Act of 1970 (P.L. 91-646).
2. I have been provided with a "Statement of Just Compensation."
3. I have elected to accept cash compensation as listed in Section G(1); which is less than the State Paroperty Office established Fair Market Value.
4. I understand that with prior NC-DENR approval the value as established in Section G(2) may be used by the Project Sponsor to meet the matching funds requirement for a North Carolina Park and Recreation Trust Fund grant.
5. I accept this Offer to Purchase and the Cash Compensation amount.
6. The reason(s) I am accepting cash compensation in an amount less than the established Fair Market Value is:

Seller/Landowner's (or legal representative) Signature

Date

It is a requirement that this completed and fully executed document be submitted with the project sponsor's FIRST PARTF Request for Reimbursement.

Appendix C

North Carolina Parks and Recreation Trust Fund

Instructions for As-Built Site Plans

Instructions for Producing As-Built Site Plan

If the park layout differs from the plan submitted with your application, you *must* submit two (2) color-coded, scaled site plans with your close out documentation. A site plan will remain part of the official project file for reference when determining grant-funded facilities. Site plans should be no smaller than one 8 1/2" x 11" page and no larger than an 11" x 17" page. Do not use card stock or similar heavy paper. Also include two (2) copies of an 8 1/2" x 11" floor plan if your project includes a large building such as a community center. Do not include floor plans for picnic shelters or restrooms.

Include the following items on each site plan with appropriate color coding:

GREEN: PARTF Funded Facilities – Recreational facilities, support facilities and other items funded with this grant. Do not include grading or utilities.

RED: Park Boundaries

ORANGE: Future Facilities / Development

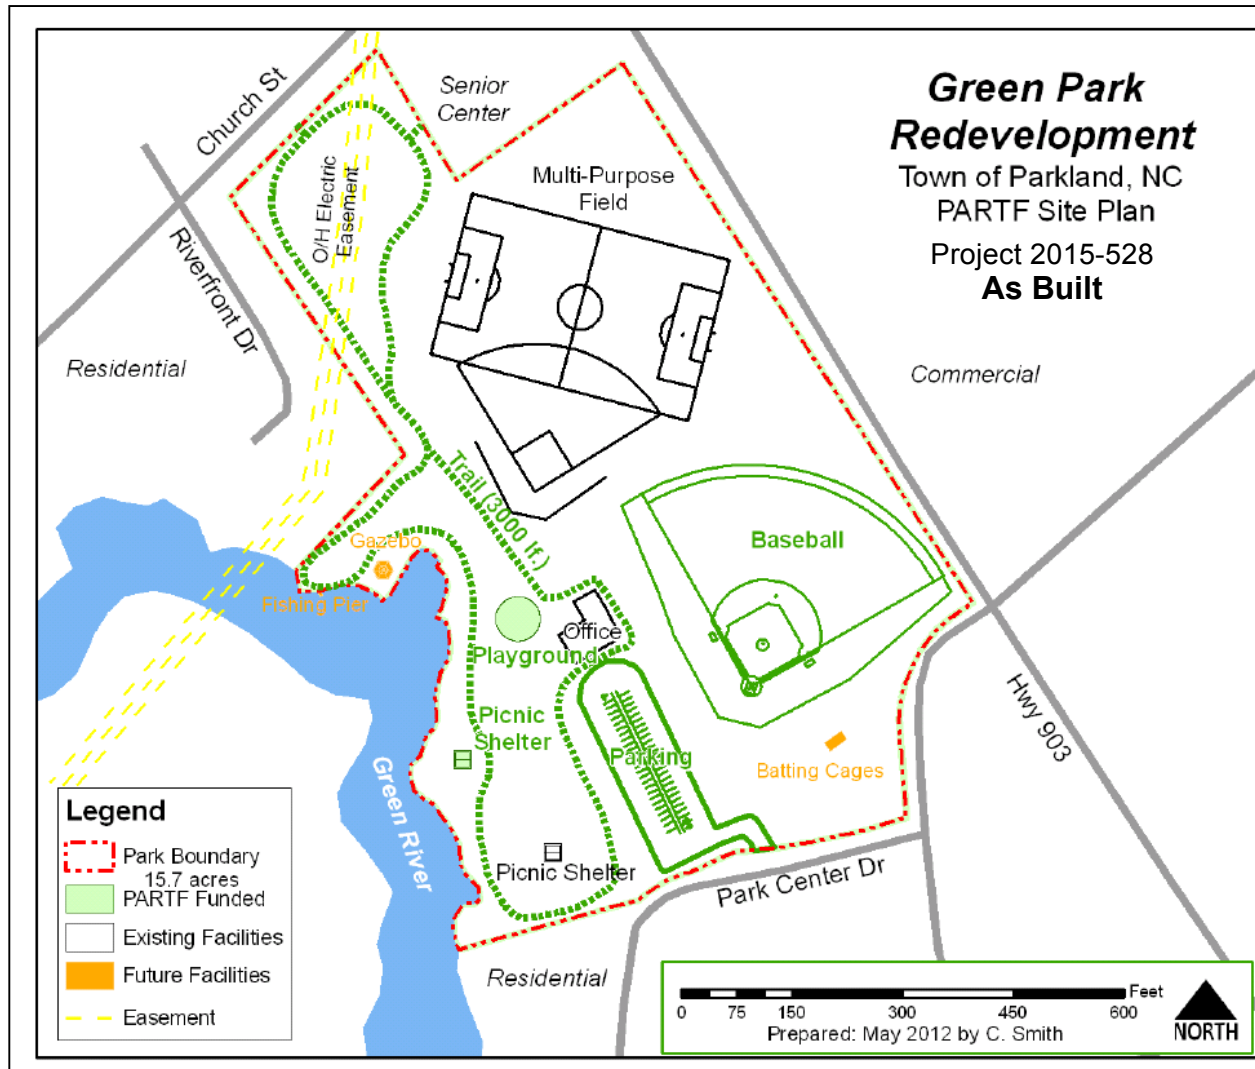

YELLOW: Easements (power, sewer, water lines)

WHITE: Pre-Existing facilities OR facilities developed with non-PARTF funds

Also include on the map:

- **Title:** Name of project, project sponsor and PARTF project number
- **Map Information:** North arrow, Scale bar and date prepared and prepared by.
- **Roads** – Show and label entrance and access roads to the site as well as names of adjacent roads
- **Acreage:** Site acreage (separate land and water acreage)
- **Uses of Adjacent Property** (ex. residential, undeveloped, business)

Example of As-Built Site Plan

Appendix D

North Carolina Parks and Recreation Trust Fund

Process for Requesting the Conversion of a PARTF Project

**Authority and Rules for the Conversion of PARTF Project
to Uses Other Than Public Recreation**

15A NCAC 12K .0109 SITE CONTROL AND DEDICATION

- (a) Land acquired with PARTF assistance shall be dedicated in perpetuity for local park and recreation purposes for the use and benefit of the general public. The dedication shall be recorded in the public property records by the grantee.
- (b) The site of a PARTF project for development shall be controlled (e.g. fee simple ownership or long-term lease) by the grantee by the closing date of the application submission period. Any lease agreement shall extend for a minimum of 25 years unless the property is the subject of a federal, state, or local leasing arrangement which provides assurance that 25 years of public recreational use will be maintained.
- (c) Grantees shall assure that PARTF assisted development facilities are maintained and managed for public recreation use for a minimum period of 25 years after the completion date set forth in the grant agreement.
- (d) PARTF-assisted land and facilities shall not be converted to uses that are other than public recreation without approval by DENR, in the following manner:
 - (1) A grant recipient shall notify DENR and request approval before any conversion occurs.
 - (2) The grant recipient shall address issues of local concern prior to forwarding a conversion request to DENR.
 - (3) DENR shall deny the request if it determines that the grantee has reasonable alternatives available to avoid the conversion.
 - (4) All conversions shall be mitigated with measures approved by DENR with advice from the Parks and Recreation Authority.
 - (5) The primary mitigation for a conversion is to have the grantee replace, at its own expense, land acquired with PARTF assistance with land of equal current fair market value and recreational usefulness. Facilities built with PARTF assistance shall be replaced with facilities of equal current replacement value, and recreational usefulness. Replacement areas shall also be within the grantee's service area; provide or be part of a viable recreation area; and be to the maximum extent possible, consistent with all current application requirements for a new PARTF application.
 - (6) Replacement property and facilities shall be encumbered by the same obligations as specified in the project agreement and rules for the converted property or facility.
 - (7) If DENR determines that the local government cannot reasonably replace the land or facilities, DENR may mitigate the conversion by the grantee repaying PARTF with funds equal to the current value of the land or facilities.
 - (8) DENR shall include provisions on conversions in all grant agreements.
- (e) A conversion is defined as the use of PARTF-assisted land or facilities for a purpose other than public recreation.
- (f) If PARTF-assisted facilities are built on public school property, the applicant(s) shall submit an agreement with the application describing that the facilities will be available to the general public during non-school hours. Projects on land owned by a school shall have sign(s) installed informing the public that the facilities are open to the general public. These signs shall also indicate the times when the facilities are reserved exclusively for school use.

(g) Failure by the grantee(s) to comply with the provisions of this Section or the project agreement may result, in addition to any other legal remedies, in the Authority on behalf of the Department declaring the grantee(s) ineligible for further participation in the PARTF until such time as compliance has been obtained.

History Note: Authority G.S. 113-44.15;

Temporary Adoption Eff. November 1, 1994, for a period of 180 days or until the permanent rule becomes effective, whichever is sooner;

Amended Eff. October 1, 2007; August 1, 1998.

Definition of a Conversion

A conversion is the use of property acquired or facilities built with PARTF assistance for a purpose other than public recreation. This includes all property or permanent easements that are donated, purchased or purchased as a bargain sale as a component of a PARTF grant.

Identifying Property Acquired and Facilities Built with PARTF Assistance

When PARTF funding is used by a local government to acquire land via fee simple title or permanent easement, PARTF rules require the land to be used in perpetuity for only public recreation use. In completing a PARTF grant, the project sponsor surveys the property acquired with PARTF assistance and this survey defines the area to be used only for public recreation. All facilities built with PARTF assistance are identified in the project sponsor's contract and the as-built site plan that the project sponsor submits upon completion of a PARTF project. The survey of the property and / or the as-built site plan is to be kept on file by the project sponsor and DENR.

Examples of Conversions of Property Acquired with PARTF Assistance

Conversions include all of the following:

1. The addition of any public or private facilities, other than public recreation facilities and facilities to support recreation, to property acquired with PARTF assistance (i.e. the project area). This includes the addition of cellular towers, libraries, township/village halls, fire stations, etc.
2. Making use of an existing structure in the project area for purposes other than public recreation. Short-term uses (generally less than one year) are not considered a conversion, but are considered a project change requiring prior DENR approval.
3. Leasing or otherwise granting control of all or a portion of the project area to another entity. Exceptions:
 - a. Short-term leases (generally under one year) that have minimal negative impact on the public recreational value of the project area are not considered a conversion, but are always considered a project change requiring prior DENR approval.
 - b. Leases of the project area for the purpose of having an entity operate the project area or facilities on behalf of the project sponsor for public recreation purposes are not considered a conversion; however, project sponsors should make the

DENR aware of operational leases and provide a copy to the agreement to be included in the project file.

4. The sale or transfer (including trading, giving away or granting permanent easements) of lands or rights in the project area to another entity.
5. Permanently closing all or a portion of the project area to the public. Non-permanent closures are considered a project change and require prior DENR approval.

Requirements for the Mitigation of Conversions of Property

1. The primary mitigation for a conversion of property is to have the project sponsor replace, at its own expense, land acquired with PARTF assistance with land of at least equal current fair market value and recreational usefulness. Replacement areas shall also be within the project sponsor's service area; provide or be part of a viable recreation area; and be to the maximum extent possible, consistent with all current application requirements for a new PARTF application.
2. Conversions of properties acquired with PARTF assistance shall be mitigated with the addition of new recreation property that was not in public ownership at the time of the conversion.
3. DENR may also, at its discretion and on a case-by-case basis, consider and approve other forms of mitigation, including cash repayment to the PARTF, when it has been demonstrated to DENR's satisfaction that no viable replacement property can be found.
4. Alternative forms of mitigation, including cash repayment, shall be based on the DENR-approved appraised value of the property at the time of conversion or the original award amount, whichever is greater.

Requirements for Mitigation of Conversions of Facilities

Any reduction or loss in usefulness in a PARTF-assisted facility shall be mitigated to DENR's satisfaction. Mitigation of facilities may include relocation or replacement with facilities of similar monetary value and recreation usefulness taking into consideration the age of the facilities and their current use. Alternative forms of mitigation, including cash repayment, shall be based on the DENR-approved value of the facility at the time of conversion.

Exceptions to the PARTF Requirements for Mitigation

DENR may consider and approve requests for exceptions to the PARTF requirements for mitigation as part of a conversion proposal, when requested and approved by DENR prior to the conversion. Upon approval of an exception, DENR may waive the mitigation requirement or approve alternative methods of mitigation. Exceptions may fall within one of the following categories:

- a. The addition of underground utility easements when it has been demonstrated to the satisfaction of DENR that there will be no significant impacts on the recreational value of the PARTF-assisted property or facilities (**See Appendix F**).
- b. Lease agreements that can be demonstrated to DENR's satisfaction to have minimal impact on the public recreation value of the PARTF-assisted property or

facilities and when any proceeds will be dedicated to maintenance or development of the project area.

- c. Sale or transfer of a small percentage of the project area to another unit of government for public recreation purposes when it can be demonstrated to DENR's satisfaction that the impact on the recreational and/or resource protection values of the project area is negligible and when any proceeds will be dedicated to maintenance or development of the project area.
- d. Easements granted for the purpose of crossing PARTF-assisted trails, when the project sponsor has written guidelines in place for evaluating requests for trail crossings and minimizing their impacts on trail use.
- e. Sale or transfer of the project area to another eligible PARTF project sponsor that will assume all of the current grant agreement obligations.

Requirements for Replacement Property

1. To be approved, a replacement property must be:
 - a. of reasonably equivalent or superior location and offer reasonably equivalent or superior recreation and/or natural resource values;
 - b. within the project sponsor's service area;
 - c. consistent all current application requirements for new PARTF acquisition applications;
 - d. provide for or be part of a viable public recreation area; and
 - e. meet all current State Environmental Policy Act (SEPA) standards and be demonstrated as safe for recreational use.
2. The value of the replacement property must be equal or greater than the fair market value (FMV) of the property to be converted, based on the DENR-approved appraisal(s) of the converted and replacement parcels completed at the time of conversion. If the current FMV of the property to be converted is less than the FMV at the time PARTF assistance was provided, the substitute parcel must have a dollar value at least equal to the original FMV.
3. If only a portion of the project area is proposed for conversion, it is within DENR's discretion to determine the size of the parcel that will be converted, based on the impact of the conversion on overall project area and the land remaining in public recreation. If PARTF-assistance was used to acquire property that was an addition to an existing park or recreation area, DENR may also consider the impact of the conversion on the overall park or recreation area in determining the acreage that will be converted.
4. Approved replacement parcels shall be encumbered by the same obligations and conditions as specified in the Project Agreement and North Carolina Administrative Rules for the converted parcel, as amended.

Unapproved/ Unresolved Conversions

1. Recipients of PARTF assistance that convert any portion of the project area without approval of DENR are in violation of their Project Agreement. DENR may take corrective actions called for in the Project Agreement.
2. Requests will be considered for mitigation of a conversion that has taken place; however, undertaking a conversion without prior approval represents a violation of this policy and subjects the project sponsor to corrective action.
3. Upon discovery of an unapproved conversion, if a project sponsor does not implement DENR-approved mitigation measures within a time frame established by DENR, the recipient may, at DENR's discretion, be considered ineligible for PARTF assistance for a period determined by DENR and the Parks and Recreation Authority.

Additional Requirements

1. It is the responsibility of the project sponsor to address issues of local concern prior to forwarding a conversion request to DENR.
2. For project areas that have also received grant assistance under other programs, such as the Land and Water Conservation Fund, the most stringent of the program requirements will govern any proposed conversion.
3. It is the responsibility of project sponsors and DENR to know the facilities built with PARTF assistance as well as the boundaries of PARTF-assisted areas and to ensure these areas and / or facilities remain dedicated to public recreation.

Steps to Request a Proposed Conversion

1. **Contact a Regional Consultant** - Project sponsors are encouraged to contact DENR field representatives, their RRS regional consultant, to discuss their potential conversion and receive assistance on how to proceed. The regional consultant is the single point of contact for a project sponsor for the PARTF grant program, including requests for a conversion.
2. **Submit an Initial Proposal** - Prior to submitting a request to convert property or facilities with PARTF assistance, a project sponsor must submit an initial proposal to their regional consultant that includes:
 - a. A description of the PARTF-assisted land (size and location) and / or facilities that the project sponsor is proposing to convert as well as the replacement land and / or facilities proposed as mitigation.
 - b. The reasons why the conversion is being requested including why the conversion is necessary.
 - c. A request for the conversion signed by a representative of the local government such as the parks and recreation director or a similar position.

3. **Receive an Approval to Proceed from DENR** – DENR will respond to the initial proposal with either an approval to proceed with the conversion request or a disapproval of the request.
4. **Prepare a Request for a Conversion** – All conversion requests must include basic information about the PARTF-assisted project, the reasons for the conversion, an analysis of the alternatives considered, and a description of the public involvement process conducted for the conversion. These elements are described in item # 5. A conversion request will have different elements depending on whether the request is to convert property (item # 6) or facilities (item # 7).
5. **Elements Needed for All Conversions** - Conversion requests must be submitted in writing to DENR via the RRS regional consultant prior to the conversion taking place. Requests must include the following information, subject to minor modification on a case-by case basis by DENR staff:
 - a. **Basic Information** - Brief history of the project and site:
 - i. grant number and project name,
 - ii. completion date,
 - iii. grant amount,
 - iv. historic and current uses of the project area and facilities,
 - v. current plat map and site plan of the project area,
 - vi. A description of the PARTF-assisted land (size and location) and / or facilities that the project sponsor is proposing to convert as well as the replacement land and / or facilities proposed as mitigation.
 - vii. proposed uses for the converted land and/ or facilities.
 - b. **Justification of the Conversion** – The project sponsor must describe the reasons why the proposed conversion is necessary.
 - c. **Analysis of the Alternatives to the Conversion** – The project sponsor must demonstrate that they have reviewed and exhausted all reasonable alternatives before proposing a conversion. The project sponsor must include the list of reasonable alternatives that were considered and why the alternatives should be rejected.
 - d. **30-Day Comment Period** - Prior to submitting a conversion request to DENR, a project sponsor must provide the public a well-publicized opportunity of at least 30 days to review the proposed site conversion and mitigation proposals. Publication of the opportunity for public review must include all of the channels normally used by the community to publicize its official actions, including publication in a newspaper of general circulation and posting of the notice at the property proposed for conversion. If the PARTF-assisted property or facilities are regional in nature and/or is supported by multiple jurisdictions, for example a linear park, the public comment opportunity must be publicized to all residents of all of the affected communities. The conversion request must include:
 - i. A description of the process used to gather public input on the proposed conversion and mitigation sites
 - ii. The evidence of the public notice

- iii. A certified copy of the minutes of the public meeting used to gather public comment.
 - iv. The comments received during the 30-day comment period.
 - v. The steps the project sponsor has taken to address the issues raised by the public regarding both the conversion and the proposed mitigation. DENR may request additional information regarding the steps taken to address local concerns.
- e. **Conduct a Public Meeting** - The project sponsor's governing body must hold a well-publicized public meeting to discuss the proposed conversion and mitigation and pass a resolution supporting the request to convert a PARTF-assisted site. The notice for this meeting should include the same channels as the notice for the public review period, including publication in a newspaper of general circulation in the affected areas at least 7 days prior to the meeting. The notice must also clearly state that the conversion issue is on the agenda and formal action is expected to be taken at this meeting. The meeting must be held and the resolution dated after the public's opportunity to review the proposal.
- f. **Resolution from the Governing Body** - A certified copy of a resolution from the project sponsor's governing body supporting the proposed conversion and committing to providing the required mitigation (see attached Sample Resolution, page 55).

6. Elements Needed for Conversions of PARTF-Assisted Property

- a. A description of the PARTF-assisted land including size and location. If less than the entire project area will be converted, a description of the impact of the conversion on the land within the project area that will remain in public recreation use. Estimated fair market value (FMV) of the parcel proposed for conversion based on an appraisal.
- b. Description of the proposed replacement parcel, including:
 - i. Current ownership and five year history of conveyance
 - ii. Property uses and conditions
 - iii. Proposed uses once acquired by the project sponsor
 - iv. Description of how the parcel is equal or superior in recreational value and/or resource protection values of the parcel to be converted.
 - v. Estimated fair market value (FMV) of the parcel proposed for conversion. All appraisals must be produced by a licensed appraiser. The appraiser must certify that each appraisal was completed using the Universal Standard of Professional Appraisal Practices.
 - vi. If the project sponsor is requesting an alternative form of mitigation, or to be exempted from mitigation, include a description of the proposed mitigation and a rationale for the request, including an explanation of why replacement is not feasible.
- c. Prepare a survey map(s) that displays the converted and replacement areas. The map(s) must include a surveyor's stamp and signature and must be signed and dated by the project sponsor's chief elected official.
- d. Preliminary site plan for the replacement property showing the proposed uses.

- e. SEPA Environmental Assessment for the converted and the replacement properties. An environmental review of the converted site was a part of the PARTF grant selection process and is required for replacement property.
- f. A commitment to acquire the replacement property within 90 days of the conversion taking place or for conversions that have already taken place, within 90 days of the mitigation being approved.

7. Elements Needed for Conversions of PARTF-Assisted Facilities

- a. A description of the PARTF-assisted facilities including size, public use, and location. If not all the facilities at a PARTF project site will be converted, a description of the impact of the conversion on the land within the project area that will remain in public recreation use.
- b. A description of the proposed mitigation (replacement or repayment). If the project sponsor is requesting an alternative form of mitigation, or to be exempted from mitigation, include a description of the proposed mitigation and a rationale for the request, including an explanation of why replacement is not feasible.
- c. If repayment is the proposed mitigation, the project sponsor must provide an estimate of the value of the facility at the time of the conversion.
- d. A commitment to replace the facility(s) within two years of the conversion taking place.
- e. An updated site plan reflecting the proposed mitigation.

DENR Review of Conversion Requests

Conversion requests will be reviewed and evaluated by DENR. Based on this review, DENR, with advice from the Parks and Recreation Authority, may deny or accept the request as proposed or request modifications. Project Agreement amendments will be executed to finalize all approved conversions and to incorporate any conditions imposed by DENR as part of the mitigation approval.

Evidence of Compliance with the Mitigation Requirements

The project sponsor will be required to provide documentation of compliance with the required mitigation to DENR within the timeframes established at the time of the final conversion approval.

Checklist for Proposed Conversions

Check Items Included	A) Grant information
_____	1. Grant number
_____	2. Project Name
_____	3. Completion date
_____	4. Grant amount
_____	5. Brief history of the use of the area
_____	6. Current uses of the project area and / or facilities
_____	7. Current plat map
_____	8. Site plan of the project area
_____	9. A description of the PARTF-assisted land (size and location) and / or facilities that the project sponsor is proposing to convert as well as the replacement land and / or facilities proposed as mitigation.
_____	10. Proposed uses for the converted land and/or facilities
	B) Reasons for the Proposed Conversion
_____	1. Justification
_____	2. Analysis of Alternatives
	C) Public Input Process
_____	1. A description of the process used to gather public input on the proposed conversion and mitigation sites
_____	2. The evidence of the public notice
_____	3. Evidence of Public Comments from the 30-day comment period
_____	4. A certified copy of the minutes of the public meeting used to gather public comment.
_____	5. The steps the project sponsor has taken to address the issues raised by the public regarding both the conversion and the proposed mitigation.
_____	6. Governing Board's approved resolution.

	D) Elements Needed for Conversions of Property
_____	1. A description of the PARTF-assisted land including size and location.
_____	2. Appraised fair market value of the PARTF-assisted property
_____	3. SEPA Environmental Assessment for the Converted Property
	4. Description of the Replacement Property
_____	a. Ownership history and five year history of conveyance
_____	b. Current and proposed use of the property
_____	c. Recreational value of the property
_____	d. Appraised fair market value of the property proposed as replacement.
_____	e. Alternative form of mitigation, if requested
_____	f. Plat map with metes and bounds signed by chief elected official
_____	g. Preliminary site plan for the replacement property showing proposed uses.
_____	h. SEPA Environmental Assessment for the replacement property
_____	i. Commitment to acquire replacement property within 90 days
	E) Elements Needed for the Conversion of Facilities
_____	1. A description of the PARTF-assisted facilities including size, public use, and location. If not all the facilities at a PARTF project site will be converted, a description of the impact of the conversion on the land within the project area that will remain in public recreation use.
_____	2. A description of the proposed replacement facilities.
_____	3. If the project sponsor is requesting an alternative form of mitigation, or to be exempted from mitigation, include a description of the proposed mitigation and a rationale for the request, including an explanation of why replacement is not feasible.
_____	4. If repayment is the proposed mitigation, the project sponsor must provide an estimate of the value of the facility at the time of the conversion.
_____	5. A commitment to replace the facility(s) within two years of the conversion taking place.
_____	6. An updated site plan reflecting the proposed mitigation.

**A RESOLUTION AUTHORIZING CONVERSION OF A NORTH
CAROLINA PARKS AND RECREATION TRUST FUND GRANT
SITE**

WHEREAS, the **Local government** received a N.C. Parks and Recreation Trust Fund (PARTF) grant in 20xx, (DENR contract number #) from the North Carolina Department of Environment and Natural Resources (DENR) to assist in the acquire of **xx** acres for its **Park Project Name**; and

WHEREAS, in accordance with the grant criteria of PARTF, a declaration of restrictions was recorded in the County of **NAME** Registry restricting the use of the **xx** number of acres converted acres to public recreation; and

WHEREAS, the **Local government** has reviewed and considered public comments and subsequently approves **the reason(s) for a conversion** such that the land will no longer meet the PARTF grant criteria; and

WHEREAS, the governing body of the Local government hereby determines that it is necessary and in the public interest to convert **xx** number of acres of land to non-recreation use and to provide at least equivalent valued replacement land; and

WHEREAS, the **Local government**, upon approval by the North Carolina Department of Environment and Natural Resources, has selected a **xx-acre name of alternative park site** as replacement property for the PARTF grant, which will include a declaration of restrictions to be recorded in the County of **Name** Registry:

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE **LOCAL GOVERNMENT**, THAT:

1. The **Local government** requests to convert the use of the **xx** acres having an address **Street in City, NC**, and requests DENR approval to release the declaration of restrictions recorded in Deed Book **xxx** , County of **Name** Registry.
2. The **Local government** shall provide at least equivalent valued replacement property of approximately **xx** acres, located at the **location of alternative site** in **City, NC**, being a portion of that parcel having PIN # **xxxxx** and upon approval by DENR shall record a declaration of restrictions on that approximate **xx-acre** portion of the property restricting its use to public recreation in perpetuity.

xxx, Mayor or Chairman of County Commissioners

Adopted this day of month, 20xx.

I, xxx, Clerk of the Local government, do hereby certify that the foregoing is a true copy of a resolution which was duly adopted by local governing body, council or commission of the Local government at its meeting on month, day, year.

Witness my hand and the official seal of the Local government on this the _____ day of month, 20xx.

xxx, Town and/or County Clerk

(Local Government Seal)

North Carolina Parks and Recreation Trust Fund

Resolution to Terminate/Withdraw a PARTF Project

**A RESOLUTION AUTHORIZING *LOCAL GOVERNMENT NAME* TO REQUEST
TERMINATION/WITHDRAWAL OF A NORTH CAROLINA PARKS AND
RECREATION TRUST FUND GRANT**

WHEREAS, the *local government name* applied for and received a grant in 20xx from the North Carolina Parks and Recreation Trust Fund (PARTF) to assist with *project / park name* in the amount of \$xxx,xxx; and

WHEREAS, the *local government name* and the Department of Environment and Natural Resources entered into a contract (*DENR contract number*) to complete the PARTF project with in a three year period.

WHEREAS, the *local government name* has decided not to go forward with the PARTF project, and

WHEREAS, the *local government name* has informed the public through a public hearing on *date* to accept public comment about the proposed action to request withdrawal of the PARTF grant award.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE *local government name* requests that the Department of Environment and Natural Resources withdraw the PARTF grant award and terminate the contract (*DENR contract number*); and

local government name shall absorb all current, past and future expenses incurred with the project and will absolve the Department of Environment and Natural Resources of any past or future liability from the project.

Name and Title of the Chief Elected Official

Adopted this the *xxx* day of *month*, 20xx.

I, name, Clerk of the *local government name*, do hereby certify that the foregoing is a true copy of a resolution which was duly adopted by the *name of governing board* at its meeting on *date*.

Witness my hand and the official seal of the local government on this the *day* of *month*, 20xx.

Name and Title of Local Government's Clerk

Appendix F

North Carolina Parks and Recreation Trust Fund

Process for Requesting an Underground Utility Easement

Underground Utility Easements

DENR may consider and approve the addition of underground utility easements on a park site acquired with PARTF assistance when the local government sponsor can demonstrate to the satisfaction of DENR that there will be no significant impacts on the public recreational value of the PARTF assisted property or facilities.

Steps Required to Request an Underground Utility Easement:

Contact your Regional Consultant – Project sponsors are encouraged to contact their DENR field representative – their RRS regional consultant, to discuss their proposed utility easement and receive assistance on how to proceed. The regional consultant is your single point of contact for the PARTF program, including utility easement proposals.

- a) Describe the proposed easement (purpose, who/what it will serve, other alternatives considered and justification for placing the easement within the park boundaries).
- b) What is the size (width and length) of the easement and how much park acreage will be needed for the easement?
- c) Describe the possible impacts on the park and the effect on PARTF-assisted facilities, both positive and negative.
- d) Local sponsor's assurance that no rights or interests will be granted in the park property by the project sponsor.
- e) Local sponsor's assurance that the intended present and future use of the PARTF project will not be impaired by the easement.
- f) Local sponsor's assurance that the park property will be restored to its pre-existing condition prior to the placement of the easement.
- g) Two copies of an updated as-built site plan for the PARTF project using the instructions found in Appendix C (page 40). The site plan must show the proposed utility easement's location in relation to existing or planned park facilities (especially PARTF-assisted facilities). The project sponsor should keep one copy of the site plan submitted for their PARTF project file.
- h) Additional points that must be adhered to:
 - i) The easement will be placed in an area of the park that will have the least negative impact on the public's use of the park.
 - ii) The maintenance service widths of the easement must be kept to a minimum.
 - iii) Any manholes will be constructed at ground level.

DENR Review of Utility Easement Requests

Underground utility easement requests will be reviewed and evaluated by DENR. Based on this review, DENR may accept or deny the request as proposed or request modifications or additional information.
